LAZARD EMERGING MARKETS EQUITY FUND

INTRODUCTION

The Company is authorised in Ireland by the Central Bank as a UCITS for the purposes of the Regulations. The Fund was approved by the Central Bank under the name “Lazard Emerging Market Equity Fund” on 21 December 2006.

This Supplement forms part of the Prospectus and should be read in conjunction with the general description of the Company contained in the current Prospectus (together with the most recent annual and semi-annual reports).

The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of shares with one or more classes representing a separate fund of the Company. Each fund may have more than one share class.

Details of the available classes of Shares in this Fund are set out in **Appendix I** to this Supplement.

As at the date of this Supplement, there are no other Share classes in the Fund apart from those listed in Appendix I, but additional share classes may be added in the future in accordance with Central Bank Requirements.

The base currency of the Fund is the US Dollar. Share classes denominated in a currency different to the Fund’s base currency (with the exception of the Hedged Share Classes) will not be hedged against movements in the base currency of the Fund.

Dealing information, including a description of the procedures for subscribing and redeeming Shares, settlement deadlines, dealing frequency and pricing is set out in **Appendix II** to this Supplement.

An investment in the Fund should be viewed as medium to long term and should not constitute a substantial portion of an investment portfolio and may not be suitable for all investors.

Investment Objective and Policy

Investment Objective

The investment objective of the Fund is to achieve long-term capital appreciation through investment in a diversified portfolio of global equities with an emerging markets bias quoted or traded on the Regulated Markets for the Fund as set out in Appendix I, and in accordance with the restrictions set out in Appendix III to the Prospectus.

Investment Policy

The Fund aims to outperform the MSCI Emerging Markets Index (the “Benchmark Index”). The Index is a broad based index composed of issuers that are domiciled, incorporated or listed, or have significant business in Emerging Market Countries (i.e. companies that have more than 50% of their net assets and/or revenues from emerging market countries are considered to do significant business in those countries.) The Fund will invest primarily in equity and equity related securities of emerging market issuers. Such securities include exchange traded and over the counter common and preferred stocks, warrants, rights (which are issued by a company to allow holders to subscribe for additional securities issued by that company), depositary receipts and shares. It is not intended that the Fund will invest in or seek exposure to the securities of companies involved in the manufacture or production of nuclear weapons, other weapons of mass destruction or landmines. The Fund may also, subject to the conditions set out in Appendix III of the Prospectus, invest in other collective schemes including exchange traded funds and/or funds of the Company. The Fund may also, on an occasional basis, invest in investment grade government and corporate fixed income securities (including bonds and notes) and convertible debt securities listed or traded on a Regulated Market. Convertible debt securities are debt securities that are convertible into equity securities of the issuer.

The securities in which the Fund will invest shall, subject to the Regulations, be listed and/or traded on the Regulated Markets set out in Appendix I of the Prospectus. Investment in securities listed or traded in Russia shall not exceed 5% of the Fund's Net Asset Value at any time and shall be limited to securities which are listed or traded on the Moscow Exchange.

Subject to the conditions and within the limits laid down by the Central Bank, the Fund may also engage in transactions in FDI for efficient portfolio management purposes. Investment by the Fund in FDI shall be in accordance with the provisions of Appendix II of the Prospectus and shall be limited to investments in index futures and/or swaps, both of which may be used to provide exposure consistent with the Fund's investment policy more efficiently from a cost and timing perspective, without having to invest directly in the reference assets. Should the Investment Manager invest in index futures and/or swaps on behalf of the Fund, the Fund's global exposure, being the incremental exposure and leverage generated by the Fund through its use of FDI, including instruments which embed a derivative element, will be calculated on at least a daily basis using the commitment approach. However, it is not intended that the Fund will be leveraged.

Benchmark

Performance of the Fund is measured against that of the MSCI Emerging Markets Index, Ticker: MXEF (the "Benchmark Index") for comparative purposes. The Index is a broad-based index composed of issuers that are domiciled, incorporated or listed, or have significant business in Emerging Market Countries (i.e. companies that have more than 50% of their net assets and/or revenues from emerging market countries are considered to do significant business in those countries).

In pursuing its investment objective, the Fund will aim to outperform the Benchmark Index. However, the Fund does not target any particular level of outperformance of the Benchmark Index as an objective.

The Fund is actively managed (meaning that the Investment Manager has discretion over the composition of the Fund's portfolio subject to its stated investment objectives and policy as set out above) and securities selection is not therefore constrained entirely by reference to the Benchmark Index. The strategy pursued by the Fund does not impose limits on the extent to which portfolio holdings and/or weights must adhere to or may diverge from the composition of the Benchmark Index. Although the Fund has full flexibility to invest in securities not represented in the Benchmark Index, it is nonetheless likely to invest significantly in constituent securities of the Benchmark Index.

Currency Hedging Policy

Hedging at Portfolio Level

It is not intended to hedge currency exposures at the level of the Fund's portfolio.

Hedging at Share Class Level

The Fund may, however, invest in currency forward exchange contracts, in order to provide protection against exposure to currency risk arising at the Share class level. There can be no guarantee however that such currency hedging transactions will be successful or effective in achieving their objective.

The purpose of such currency hedging transactions is to provide protection against movements of the currency in which a Share class is denominated relative to the Fund's base currency, where different. To the extent that such hedging transactions are successful, the performance of the relevant Hedged Share Class is likely to move in line with the performance of the Fund's Investments and Shareholders of the Hedged Share Class will not benefit as a result of a decline in the value of the currency in which the class is denominated relative to the base currency of the Fund or relative to the currencies in which the assets of the Fund are denominated. To the extent that the Fund employs strategies aimed at hedging certain Share classes, there can be no assurance that such strategies will be effective.

The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging currency exposure for the benefit of any particular Hedged Share Class of the Fund shall be attributable exclusively to the relevant Share class.

Currency exposure will not exceed 105% of the Net Asset Value of the relevant Hedged Share Class. All transactions will be clearly attributable to the relevant Hedged Share Class and currency exposures of different Share classes will not be combined or offset. The Company will have procedures in place to monitor hedged positions and to ensure that over-hedged positions do not exceed 105% of the Net Asset Value of the relevant Hedged Share Class and that under-hedged positions do not fall short of 95% of that portion of the Net Asset Value of the relevant Hedged Share Class that is to be hedged against currency risk. As part of this procedure, the Company will review hedged positions in excess of 100% of the Net Asset Value of the relevant Hedged Share Class and any under-hedged positions on at least a monthly basis to ensure they are not carried forward from month to month. While not the intention of the Company, overhedged or underhedged positions may arise due to factors outside the control of the Company.

Investment and Borrowing Restrictions

The Company is a UCITS and accordingly the Fund is subject to the investment and borrowing restrictions set out in the Regulations and Central Bank Requirements. These restrictions are set out in detail in Appendix III to the Prospectus.

The Fund qualifies as an "*equity fund*" for the purpose of the German Investment Tax Act 2018 ("GITA 2018") in that at least 51% of the Fund's Net Asset Value will at all times be invested in equity securities which are listed on a stock exchange or traded on an organised market. For the avoidance of doubt, the term "equity securities" in this particular context does not include units or shares of investment funds or REITs (Real Estate Investment Trusts). Relevant investors should refer to the section of the Prospectus entitled German Taxation for further information on the impact of GITA 2018.

Risk Factors

Shareholders and potential investors should consider and take account of the risk factors set out in the Prospectus (in particular the risks under the headings "*Market Fluctuations*", "*Active Management Risk*", "*Inflation Risk*", "*Risks Associated with Investments in Russia*", "*Political Risk*" and "*Emerging Markets Risk Factors*") in addition to those set out below.

The value of investments may fall as well as rise and investors may not receive back the amount invested.

Exchange Rate Risk

The base currency of the Fund is the US Dollar. Share classes denominated in a currency different to the Fund's base currency (with the exception of the Hedged Share Classes) will not be hedged against the movements in the base currency and will, accordingly, be subject to exchange rate risk in relation to the Fund's base currency.

The Fund has the flexibility to invest in assets denominated in currencies different to the base currency of the Fund. However, it is not intended to hedge such currency exposures against the Fund's base currency and the Fund may therefore be affected unfavourably due to fluctuations in the relevant rates of exchange.

The attention of Shareholders and potential investors is drawn to the other general risk factors set out in the section of the Prospectus entitled "*Risk Factors*" and, in particular, to the risk factors which relate to Funds that invest in emerging markets, in debt securities (including convertible securities) and in financial derivative instruments.

Risks linked with dealing in securities in China via Stock Connect

The Fund may invest and have direct access to certain eligible China A-Shares via the Shanghai-Hong Kong Stock Connect and/or the Shenzhen Hong Kong Stock Connect (together "Stock Connect"). Stock Connect is a securities trading and clearing linked programme developed by Hong Kong Exchanges

and Clearing Limited, Shanghai Stock Exchange, Shenzhen Stock Exchange and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the Peoples Republic of China and Hong Kong. Investing in the People's Republic of China via Stock Connect bypasses the requirement to obtain RQFII status, which is required for direct access to either of the Shanghai Stock Exchange or the Shenzhen Stock Exchange.

Under Stock Connect, overseas investors (including the Fund which invests in China A-Shares) may be allowed, subject to rules and regulations issued/amended from time to time, to trade certain China A-Shares listed on either the Shanghai Stock Exchange or the Shenzhen Stock Exchange.

Stock Connect is subject to quota limitations measuring total purchases and sales of securities via Stock Connect. Buy orders and sell orders offset each other for the purposes of the quota. For example, if the daily quota is exceeded, buy orders will be rejected until the next trading day. The quota is not particular to the Fund or Investment Manager, it is applied to the market as a whole and this may restrict the Fund's ability to deal via Stock Connect on a timely basis and may impact on the Fund's ability to implement its investment strategy effectively.

Investors should also note that a security may be recalled from the scope of Stock Connect. This may adversely affect the Fund's ability to meet its investment objective, e.g. when it wishes to purchase a security which is recalled from the scope of Stock Connect. In addition, should a security be recalled from the scope of Stock Connect, there is a risk that the Fund may lose some or all of the value of the security, if there are insufficient funds to pay all participants in Stock Connect.

The precise nature and rights of the Fund as the beneficial owner of China A Shares through the Stock Connect programme is not well defined and enforcement of rights under Chinese law therefore is uncertain.

Under Stock Connect, China A Shares listed companies and trading of China A Shares are subject to market rules and disclosure requirements of the China A Shares market. Any changes in laws, regulations and policies of the China A Shares market or rules in relation to Stock Connect may affect share prices. Foreign shareholding restrictions and disclosure obligations are also applicable to China A Shares.

To facilitate investors, whose China A Shares listed on either the Shanghai or Shenzhen Stock Exchanges are maintained with custodians, to sell those securities without having to pre-deliver them from their custodians to their executing brokers, an enhanced pre-trade checking model (or "SPSA Model") was introduced.

Under the SPSA Model, an investor, whose China A shares are maintained with a custodian that is registered and admitted to participate in the Central Clearing and Settlement System operated by Hong Kong Securities Clearing Company Limited ("CCASS"), can request such custodian to open a special segregated account ("SPSA") in CCASS to maintain its holdings in such securities. Each SPSA will be assigned a unique investor identification number by CCASS. The investor may designate up to 20 executing brokers to use its unique identification number to execute orders in those securities on its behalf. The SPSA Model allows pre-trade checking to be completed without the investor transferring its China A shares from its custodian to its executing broker before the market opens on the day of selling. Under the SPSA Model, an investor will only need to transfer its China A shares from its SPSA to its executing broker's account after execution and not before placing the sell order.

If the SPSA Model ceases to be available to the Fund for any reason at any time, this may adversely affect the Fund's ability to meet its investment objective and to buy or sell China A Shares in a timely manner.

Profile of a Typical Investor

Suitable for investors over the medium to long term seeking to achieve capital appreciation, principally through investment in listed securities (principally, but not exclusively, equity securities) and who are willing to tolerate the high levels of volatility often associated with the global equity markets.

Management and Administration

Detailed descriptions of the Directors and service providers to the Company are set out in the Prospectus.

FEES AND EXPENSES

Share Class Fees and Charges

Details of the fees and charges applicable to each class of Shares (including the Annual Management Fee and the maximum percentage fees payable on subscription, redemption and conversion) are set out in the tables included in Appendix I to this Supplement.

In addition to those fees and charges, each of the Hedged Share Classes shall bear its attributable portion of the fees payable to the Bank Administrator. The Bank Administrator has been engaged to facilitate the carrying out of foreign exchange transactions for the purpose of hedging the exposure of each Hedged Share Class to changes in the rate of exchange between the currency in which that Hedged Share Class is denominated and the base currency of the Fund. The fees payable to the Bank Administrator are as set out in the Prospectus.

Other Expenses Cap

Each class of Shares of the Fund shall bear its attributable proportion of the other expenses of the Company (as are set out in detail under the heading "*Other Expenses*" in the section of the Prospectus entitled "*Fees and Expenses*") subject to a cap of 0.30% per annum of the Net Asset Value of the Fund. The Manager will be responsible for any expenses in excess of this limit with the exception of the expenses of acquiring and disposing of Investments (including brokerage expenses, custodial and sub-custodial transaction charges, stamp duties and other relevant taxes).

Additionally, the Manager will not be responsible for the costs of hedging currency exposure for the benefit of any particular Share class of the Fund, which costs shall be attributable exclusively to the relevant Share class.

However, investors who wish to deal or settle in a currency different to the currency in which the relevant Shares are denominated should refer to the "Dealing/Settlement Currency" section of the 'Dealing Information' table in Appendix II.

Hedged Share Classes are denoted in this table by the inclusion of '(Hedged)' immediately following the relevant Share class currency. Please refer to the section of this Supplement entitled "Currency Hedging Policy" for further information in respect of Hedged Share Classes.

- (3) or the equivalent amount in the currency in which the relevant class of Shares is denominated (or less at the discretion of the Manager).
- (4) being a percentage per annum of the Net Asset Value attributable to the relevant class of Shares. The Annual Management Fee is accrued daily based on the daily Net Asset Value attributable to the relevant class of Shares and is paid to the Manager monthly in arrears. The Manager is also entitled to be reimbursed by the Fund for its reasonable out-of-pocket expenses. The Manager is responsible for discharging the fees and expenses of the Investment Manager, the Promoter and the Distributors out of the fees it receives from the Fund.

VALUATION OF ASSETS

The Net Asset Value of the Fund and of each Share class will be calculated by the Administrator as at each Valuation Point in accordance with the requirements of the Articles and full details are set out under the heading "*Statutory and General Information*" in the Prospectus.

Applications for subscriptions and redemptions properly received will be processed on a Dealing Day. The Net Asset Value of the Fund and of each Share class will be available on each Valuation Day, whether such Valuation Day is a Dealing Day or not.

SUBSCRIPTION PROCEDURE

All applicants subscribing for Shares must complete the application form prescribed by the Directors in relation to the Fund ("**Application Form**") and comply promptly with all necessary money laundering clearance requirements.

An Application Form accompanies this Supplement and sets out the methods by which and to whom the subscription monies should be sent. Application Forms shall (save as determined by the Manager) be irrevocable and may be sent by facsimile to the Administrator at the risk of the applicant.

The original Application Form should be sent to arrive with the Administrator within four Business Days of the date on which the application for Shares was made. All required anti-money laundering documentation (including such original documentation as may be required) should accompany the original Application Form.

Failure to provide the original Application Form and all required anti-money laundering documentation within the time period referred to in the previous paragraph may, at the discretion of the Manager, result in the compulsory redemption of the relevant Shares.

Applicants will be unable to redeem Shares on request until the original Application Form and all required anti-money laundering documentation has been received by the Administrator in a form satisfactory to it, and accepted.

Shareholders may subscribe for further Shares (i.e. post their initial subscription) by telephoning or sending a fax to the Administrator or by such other means as the Company may permit. Telephone dealing will be recorded by the Administrator.

All subscription requests received after the Initial Offer Period for the relevant Shares has closed will be dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares subscribed calculated as at the Valuation Point for the Dealing Day on which the subscription is effected).

Applications for Shares received after the Initial Offer Period for such Shares has closed must be received and accepted before the Cut-Off Time for the Dealing Day on which the subscription is to be effected. No application will be considered received and accepted by the Administrator until **(a)** a completed Application Form and **(b)** all required anti-money laundering documentation, have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Any such applications (as referred to in the previous paragraph) received after the Cut-Off Time for the relevant Dealing Day will normally be held over until the next following Dealing Day. However, in exceptional circumstances, applications received after the Cut-Off Time but prior to the Valuation Point for a particular Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for subscription on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next Dealing Day.

If payment in full in cleared funds in respect of a subscription has not been received by the Settlement Deadline specified in the "*Dealing Information*" table above, the Company may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the applicant for any loss suffered by the Fund as a result of the delay or non-clearance. In addition, the Company will have the right to sell or redeem all or part of the applicant's holding of Shares in the Fund or in any other sub-fund of the Company in order to meet those charges.

REDEMPTION PROCEDURE

Every Shareholder will have the right to require the Company to redeem his Shares on any Dealing Day (save during any period when the calculation of the Net Asset Value is suspended in the circumstances set out under the heading "*Temporary Suspensions*" in the Prospectus) on furnishing to the Administrator a redemption request. Shares may be redeemed only by application through the Administrator.

All redemption requests are dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares to be redeemed calculated as at the Valuation Point for the Dealing Day on which the redemption is effected).

Redemption requests will only be accepted where cleared funds and completed documents are in place from original subscriptions. No redemption payment will be made until **(a)** the original Application Form and **(b)** all required anti-money laundering documentation (including such original documentation as may be required), have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Redemption requests must be received and accepted before the Cut-Off Time for the Dealing Day on which the redemption is to be effected. Shares will be redeemed at the relevant Net Asset Value for the relevant Dealing Day (less such redemption fee and Duties and Charges, if any, as may be applied). If the redemption request is received after the relevant Cut-Off Time it shall normally be treated as a request for redemption on the Dealing Day following such receipt and Shares will be redeemed at the relevant Net Asset Value for that day (less such redemption fee and Duties and Charges, if any, as may be applied). However, in exceptional circumstances, redemption requests received after the Cut-Off Time, but prior to the Valuation Point for the relevant Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for redemption on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next following Dealing Day.

Redemption requests shall (save as determined by the Manager) be irrevocable and may, at the risk of the relevant Shareholder, be given by telephone, fax or by post or by such other means as the Company may permit in accordance with Central Bank Requirements.

Compulsory Redemption

The Manager shall have the right to redeem compulsorily any Share at the Redemption Price or to require the transfer of any Share to a Qualified Holder if in its opinion (i) such Share is held by a person other than a Qualified Holder; or (ii) the redemption or transfer (as the case may be) would eliminate or reduce the exposure of the Company or the Shareholders to adverse tax or regulatory consequences.

Switching

Details in respect of switching are set out in detail under the heading "*Switching Between Share Classes and Funds*" in the Prospectus.

Transfers

The conditions relating to transfers of Shares are set out in the Prospectus.
