
If you are in any doubt about the contents of this Supplement, you should consult your stockbroker, bank manager, solicitor, accountant or other independent financial adviser.

The Directors of Lazard Global Investment Funds plc (the “Company”), whose names appear under the heading “*Management and Administration*” in the prospectus of the Company dated 29 March 2019 (the “Prospectus”) accept responsibility for the information contained in the Prospectus and this Supplement. To the best of the knowledge and belief of the Directors (who have taken all reasonable care to ensure that such is the case) the information contained in the Prospectus and this Supplement is in accordance with the facts and does not omit anything likely to affect the import of the information.

LAZARD GLOBAL HEXAGON EQUITY FUND*

*(a Fund of Lazard Global Investment Funds plc
an open-ended investment company with variable capital structured as an
umbrella fund with segregated liability between Funds)*

SUPPLEMENT

****This Fund is closed to all further subscriptions pending the submission of an application for withdrawal of its approval to the Central Bank.***

This Supplement forms part of and should be read in the context of and in conjunction with the Prospectus.

This Supplement replaces the Supplement dated 18 December 2017.

The date of this Supplement is 29 March 2019.

DEFINITIONS

“Cash Manager”, Lazard Asset Management LLC, or such other person as may be appointed, in accordance with Central Bank Requirements, to provide discretionary cash management services to the Fund.

“Fund”, Lazard Global Hexagon Equity Fund.

“Hedged Share Classes”, those classes of Shares specified in Appendix I of this Supplement as being hedged Share classes.

“Initial Offer Period”, the period during which Shares of a particular class or classes in the Fund are initially on offer as set out in this Supplement or such earlier or later period as the Directors, at their discretion, may determine and notify to the Central Bank.

“Initial Offer Price”, the price per Share at which Shares of a particular class may be subscribed for during the relevant Initial Offer Period.

“Investment Manager”, Lazard Asset Management LLC and/or such other person as may be appointed, in accordance with Central Bank Requirements, to provide investment management services to the Fund.

“Share(s)”, share(s) of the Fund.

LAZARD GLOBAL HEXAGON EQUITY FUND

INTRODUCTION

The Company is authorised in Ireland by the Central Bank as a UCITS for the purposes of the Regulations. The Fund was approved by the Central Bank on 31 October 2013.

This Supplement forms part of the Prospectus and should be read in conjunction with the general description of the Company contained in the current Prospectus (together with the most recent annual and semi-annual reports).

The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of shares with one or more classes representing a separate fund of the Company. Each fund may have more than one share class.

Details of the available classes of Shares in this Fund are set out in **Appendix I** to this Supplement.

As at the date of this Supplement, there are no other Share classes in the Fund, apart from those listed in Appendix I, but additional share classes may be added in the future in accordance with Central Bank Requirements.

The Fund Base Currency is the US Dollar. Share classes denominated in a currency different to the Fund Base Currency (with the exception of the Hedged Share Classes) will not be hedged against movements in the Fund Base Currency.

Dealing information, including a description of the procedures for subscribing and redeeming Shares, settlement deadlines, dealing frequency and pricing is set out in **Appendix II** to this Supplement.

An investment in the Fund should be viewed as medium to long term and should not constitute a substantial portion of an investment portfolio and may not be suitable for all investors.

Investment Objective and Policy

Investment Objective

The investment objective of the Fund is to seek long-term capital growth.

Investment Policy

The Investment Manager will seek to achieve the Fund's investment objective primarily through investing in a diversified portfolio of equities and equity related securities (namely, common and preferred stock and depositary receipts, both ADRs and GDRs) of companies located throughout the world, both in developed and in emerging markets.

The Fund may gain exposure to equity and equity related securities either directly by acquiring such securities or indirectly through the use of financial derivative instruments ("FDI") for direct investment purposes by taking synthetic long and/or synthetic short positions. Short positions may only be taken synthetically through the use of FDI including swaps, equity index futures, contracts for difference, equity options and forwards (as set out in more detail below under the heading "*Investment in FDI*").

Long positions may be taken in companies which the Investment Manager believes have high sustainable or improving financial productivity and compelling valuations while short positions will be taken in companies which possess the opposite characteristics.

The Investment Manager expects to utilise a "bottom-up" stock picking investment approach to identify suitable investment opportunities. A key component in the investment process is fundamental analysis which is conducted to assess, for example, a stock's potential for growth and to identify catalysts for price re-evaluation (e.g. whether the company's earnings estimates are too low).

Fundamental analysis will involve, for example, analysing a company's quality and depth of management, competitive position and sensitivity to economic/market cycles.

Country allocations and industry/sector exposures are residual consequences of the stock selection process rather than primary drivers of it. However, as the Fund has a global focus, investors should note that in excess of 20% of the Fund's Net Asset Value may be exposed to emerging markets.

As the Fund's portfolio will consist principally of equities, it is likely that the Fund's Net Asset Value will exhibit significant volatility.

The Fund may also invest in units or shares of collective investment schemes, including exchange traded funds ("ETFs") and other sub-funds of the Company, where such investment provides equity exposure consistent with the investment policy of the Fund. Aggregate investment by the Fund in open-ended collective investment schemes shall not exceed 10% of the Fund's Net Asset Value.

The Fund may also invest in listed REITs (i.e. Real estate investment trusts), exchange traded notes ("ETNs") and closed-ended collective investment schemes.

The Fund may also at times hold a significant portion of its Net Asset Value in cash which may be invested in accordance with the cash management policy, as further detailed below in the section entitled "Cash and Cash Management".

In pursuit of its investment strategy, the Fund will therefore build and maintain a diversified portfolio comprised of:

- equities and equity related securities;
- FDI (as set out in more detail below);
- units or shares of collective investment schemes; and
- cash and cash like investments.

The securities, including REITs, ETFs, ETNs and closed-ended collective investment schemes, in which the Fund will invest shall primarily be listed or traded on the Regulated Markets set out in Appendix I of the Prospectus and investment by the Fund is subject to the restrictions set out in Appendix III of the Prospectus. Investment in securities listed or traded on the Regulated Markets of Russia shall not exceed 20% of the Fund's Net Asset Value at any time.

Under normal market conditions, maximum short exposure is anticipated to be less than 100% of the Fund's Net Asset Value and the maximum long exposure is anticipated to be less than 200% of the Fund's Net Asset Value. These ranges are, however, subject to change depending upon market conditions.

Investment in FDI

Subject to the conditions and within the limits laid down by the Central Bank, the Fund may also engage in transactions in FDI, for hedging purposes (for example, to protect an asset against, or minimise liability from, fluctuations in market value or foreign currency exposures), for efficient portfolio management purposes (with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns within a level of risk consistent with the risk profile of the Fund) and/or for direct investment purposes (with a view to generating returns in particular in the context of the Fund's short exposure). These FDI may be dealt in over-the-counter or be listed or traded on the Regulated Markets set out in Appendix I to the Prospectus. Investments in FDI shall be in accordance with the provisions of Appendix II of the Prospectus. The reference items for FDI will primarily relate to equities and equity-related securities, however currencies may also constitute underlying reference items, as detailed below. To the extent that the Fund invests in eligible securities which embed a derivative (for example ETNs) the security will be broken down into its component parts and the effect of the embedded derivative exposure will be captured in the risk management technique used to measure global exposure in accordance with the requirements of the Regulations.

It is expected that in normal circumstances no more than 60% of the Fund's Net Asset Value will be subject to *'Total Return Swaps'* as such term is defined in accordance with the SFTR, although the

maximum proportion of the Fund's Net Asset Value that can at any time be subject to such FDI at the Investment Manager's discretion is 100%.

The Investment Manager uses a risk management technique known as absolute value-at-risk to assess the Fund's market risk to seek to ensure that the use of FDI by the Fund is within regulatory limits. The 99% confidence level, one day holding period, value-at-risk on the portfolio of the Fund shall not exceed 4.47% in any one day. The value-at-risk model will use one year of historical data of daily market moves.

Using the value-at-risk approach for exposure measurement does not necessarily limit leverage levels. However, the Fund through its investments in FDI may be leveraged. Calculating leverage resulting from derivative usage, in accordance with Central Bank Requirements, as the sum of notionals underlying all the FDI positions in the Fund expressed as a percentage of the Fund's Net Asset Value the expected level of the Fund's leverage will be 350% of the Fund's Net Asset Value. Higher leverage levels are possible, but leverage is not expected to exceed 475% of the Fund's Net Asset Value at any time. It should be noted that for certain types of trading strategies this approach to measuring leverage could lead to leverage levels that are very different from risk-exposures.

While the Fund may invest in any of the FDI described below, the use of Unfunded Swaps will form an integral part of the Fund's strategy.

Unfunded Swaps

The Fund may invest in unfunded total return swaps ("**Unfunded Swaps**") with one or more trading counterparties (each a "**Trading Counterparty**") (see "**Use of Unfunded Swaps**" below). Where the Fund enters into Unfunded Swaps, such Unfunded Swaps will provide the Fund with exposure to a notional portfolio of assets whereby the Fund is able to derive the economic benefit of those assets without having to acquire the assets directly. This enables the Fund to gain exposure to the notional portfolio more efficiently from a cost and timing perspective and to access certain markets more easily than acquiring the underlying assets directly. The notional portfolio of assets forming the underlying portfolio of the Unfunded Swap will seek to provide the Fund with exposure to companies in respect of which both long and short positions may be taken by the Investment Manager and shall typically include global equities and equity-related securities, ETFs, ETNs, contracts for difference on equity securities and equity indices and other FDI (as described below).

Pursuant to the Unfunded Swap, the Trading Counterparty and the Fund will exchange periodic cash payments, with the Fund receiving a payment based on the performance of the underlying notional portfolio and the Trading Counterparty receiving a payment based on the performance of certain assets which the Fund holds directly.

Use of Unfunded Swaps

Each Trading Counterparty and the Company on behalf of the Fund have entered or will enter into a master agreement (and credit support annex) and will enter into relevant trade confirmations which will govern the Unfunded Swaps, including provisions relating to termination. Additional confirmations may be entered into in relation to repurchases of and subscriptions for Shares to adjust the nominal value of the underlying exposure.

No Trading Counterparty has discretion over the composition of the Fund's portfolio or of the notional portfolio of assets forming the underlying portfolio on the Unfunded Swaps.

On a daily basis the Fund will ensure that margin is posted between the Fund's cash account and the relevant Trading Counterparty to ensure that the Fund's risk exposure to the Trading Counterparty (caused by any profit and loss on the Unfunded Swap) is reduced to the extent required by the Central Bank or the Regulations.

The Unfunded Swaps may be terminated on the occurrence of certain events with respect to either the Fund or the relevant Trading Counterparty including, but not limited to, an event of default (such as a failure to pay, breach of agreement or bankruptcy) or a termination event (which is not due to the fault of either party, for example, illegality or a tax event).

If the Unfunded Swaps are terminated, market quotations will be obtained with respect to the Unfunded Swaps. An amount equal to the relevant market quotation will be settled between the relevant Trading Counterparty and the Fund in accordance with the terms of the Unfunded Swaps. The Fund may then enter into new FDI in the form of unfunded swaps with other trading counterparties. Please see disclosures under the heading “*Unfunded Swaps*” of the “*Risk Factors*” section of the Prospectus.

Futures (equity futures, currency futures, equity index futures)

Futures are contracts to buy or sell a standard quantity of a specific asset (or, in some cases, receive or pay cash based on the performance of an underlying asset, instrument or index) at a pre-determined future date and at a price agreed through a transaction undertaken on an exchange. The Fund may invest in futures contracts in order to hedge against market risk or currency exchange risk arising in its portfolio or to gain exposure to an underlying market or reference asset in keeping with the investment policy of the Fund without investing directly. Using futures to achieve a particular strategy instead of investing directly in the underlying security or index may result in lower transaction costs being incurred by the Fund.

Contracts for difference (“CFDs”) (CFDs on equity securities and on equity indices)

A CFD is an agreement between two parties which stipulates that one party will pay to the other the difference between the value of an underlying asset, instrument or index at the time the contract is entered into and the value of that asset, instrument or index when the contract is closed out. The amount that one party pays to the other depends on the directional movement in the price and the extent by which the price moves. Where a long position is taken and the value of the underlying has increased at the time the contract is closed out, the contract seller will pay the difference to the buyer. Conversely, if the value of the underlying has decreased at the time the contract is closed out, the buyer will be required to pay the difference to the seller. A CFD has no expiry date which means that the contract buyer decides when to close out its position.

Options (currency options, equity options, options on equity indices)

An option is a contract which gives the contract buyer the right, but not the obligation, to exercise a term of the option, such as buying a specified quantity of a particular product, asset or financial instrument, on, or up to and including, a future date (the exercise date). The 'writer' (seller) has the obligation to honour the specified term of the contract. Since the option gives the buyer a right and the seller an obligation, the buyer pays the seller a premium. Put options are contracts that give the option buyer the right to sell to the seller of the option the underlying product or financial instrument at a specified price on, or before, the exercise date. Call options are contracts that give the option buyer the right to buy from the seller of the option the underlying product or financial instrument at a specified price on, or before, the exercise date. Options may also be cash settled. The Fund may buy or sell (write) exchange-traded or over-the-counter put and call options. The Fund may invest in options in order to gain exposure to certain asset classes, baskets of assets or markets in keeping with the investment policy of the Fund without having to invest directly in the reference assets or markets, or in order to protect against risks arising in the Fund's portfolio.

Forwards (foreign exchange forwards, including non-deliverable currency forwards)

A forward contract locks in the price at which an asset may be purchased or sold on a future date. In forward foreign exchange contracts, the contract holders are obligated to buy or sell from another a specified amount of one currency at a specified price (exchange rate) with another currency on a specified future date. Forward contracts can be 'closed out' by entering into a reverse contract. The Fund may use foreign exchange forwards, including non-deliverable currency forwards, for example, to protect against fluctuations in the relative value of its portfolio positions as a result of changes in currency exchange rates and/or to benefit directly from changes in currency exchange rates.

Cash and Cash Management

In addition to cash held by the Fund as ancillary liquidity for the settlement of transactions, the Fund

may hold a significant portion of its Net Asset Value in cash due either to the Fund's use of FDI and/or because the Investment Manager otherwise deems it to be appropriate to do so. In such circumstances, the Fund's cash (not invested directly or through an Unfunded Swap) will be actively managed by the Cash Manager who will seek to maximise the value of such cash holdings to the Fund by investing in treasuries and in a wide variety of other money market instruments and money market funds which satisfy Central Bank Requirements for investment by a UCITS.

Currency Hedging Policy

The Fund may engage in currency hedging transactions, including investment in FDI, in order to provide protection against exposure to currency risk arising both at the level of its portfolio holdings and at Share class level. There can be no guarantee however that such currency hedging transactions will be successful or effective in achieving their objective.

The FDI which the Fund may use for currency hedging purposes are set out in the section of this Supplement entitled "*Investment in FDI*".

Hedging at Portfolio Level

The Fund may engage in currency hedging transactions in order to protect the value of specific portfolio positions or in anticipation of changes in the relative values of the currencies in which current or future Fund portfolio holdings are denominated or quoted. For example, the Fund may engage in currency hedging transactions in order to offset the currency exposure arising as a result of Investments in its portfolio being denominated in currencies different from the Fund Base Currency or to protect against movements in currency exchange rates between the date on which the Investment Manager contracts to purchase or sell a security and the settlement date for the purchase or sale of that security, or to "lock in" the equivalent of a dividend or interest payment in another currency.

Hedging at Share Class Level

The Fund may also engage in currency hedging transactions in order to provide protection against movements of the currency in which a Share class is denominated relative to the Fund Base Currency, where different. To the extent that such hedging transactions are successful, the performance of the relevant Hedged Share Class is likely to move in line with the performance of the Fund's Investments and Shareholders of the Hedged Share Class will not benefit as a result of a decline in the value of the currency in which the class is denominated relative to the Fund Base Currency or relative to the currencies in which the assets of the Fund are denominated. To the extent that the Fund employs strategies aimed at hedging certain Share classes, there can be no assurance that such strategies will be effective.

The Currency Manager has been appointed to provide non-discretionary currency hedging services in respect of the Hedged Share Classes of the Fund.

The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging currency exposure for the benefit of any particular Hedged Share Class of the Fund shall be attributable exclusively to the relevant Share class.

Currency exposure will not exceed 105% of the Net Asset Value of the relevant Hedged Share Class. All transactions will be clearly attributable to the relevant Hedged Share Class and currency exposures of different Share classes will not be combined or offset. The Company has procedures in place to monitor hedged positions and to ensure that over-hedged positions do not exceed 105% of the Net Asset Value of the relevant Hedged Share Class. As part of this procedure, the Company will review hedged positions in excess of 100% of the Net Asset Value of the relevant Hedged Share Class on at least a monthly basis to ensure they are not carried forward from month to month. While not the intention of the Company, overhedged or underhedged positions may arise due to factors outside the control of the Company.

Investment and Borrowing Restrictions

The Company is a UCITS and accordingly the Fund is subject to the investment and borrowing restrictions set out in the Regulations and Central Bank Requirements. These restrictions are set out in detail in Appendix III to the Prospectus.

Risk Factors

Shareholders and potential investors should consider and take account of the risk factors set out in the Prospectus in addition to those set out below.

Investment in the Fund not equivalent to a Deposit

The Fund may invest a significant amount of its Net Asset Value in deposits and/or money market instruments, but should not be considered by investors as an alternative to investing in a regular deposit account. Investors should note that a holding in the Fund is subject to the risks associated with investing in a collective investment undertaking, in particular the fact that the principal sum invested is capable of fluctuation as the Net Asset Value of the Fund fluctuates.

ETFs

The Fund may invest in ETFs and in FDI which provide exposure to ETFs. ETFs seek to track the performance and dividend yield of specific indexes or companies in related industries. These indexes may be either broad-based, sector or international. ETF shareholders are generally subject to the same risk as holders of the underlying securities they are designed to track. ETFs are also subject to certain additional risks, including, without limitation, the risk that their prices may not correlate perfectly with changes in the prices of the underlying securities they are designed to track, and the risk of trading in an ETF halting due to market conditions or other reasons, based on the policies of the exchange upon which the ETF trades. In addition, the Fund may bear, along with other shareholders of an ETF, its *pro rata* portion of the ETF's expenses, including management fees.

Short Sales

The Fund is not permitted to enter into "physical short sales". The Fund may however take short positions through derivatives in respect of underlying assets in pursuit of its investment objective and in accordance with Regulations. In general, short selling involves selling securities the seller does not own in anticipation of a decline in their market value and borrowing the same securities for delivery to the purchaser, with an obligation to redeliver securities equivalent to the borrowed securities at a later date. Short selling allows the investor to profit from a decline in market price of securities to the extent such decline exceeds the transaction costs and the costs of borrowing the securities. A short sale creates the risk of an unlimited loss, in that the price of the underlying securities could theoretically increase without limit, thus increasing the cost to a Fund of buying those securities to cover the short position.

There can be no assurance that the securities necessary to cover the short position will be available for purchase. Purchasing securities to close out a short position can itself cause the price of the securities to rise further, thereby exacerbating the loss.

In taking short positions through derivatives, the Fund will be seeking the same financial reward, and will be exposed to the same market risks, as if it were entering into physical short sales. Taking short positions through derivatives involves trading on margin and, accordingly, the leverage provided through margined positions involves greater risk than investments based on physical short sales.

Due to legislative or regulatory action taken by regulators and governments around the world as a result of recent volatility in the global financial markets, taking short positions on certain assets has been restricted. The levels of restriction vary across different jurisdictions and are subject to change in the short to medium term. These restrictions have made it difficult and in some cases impossible for certain market participants to either continue to implement their investment strategies or to control the risk of their open positions. Accordingly, the Investment Manager may not be in a position to trade in a way to fully benefit from its negative views in relation to certain assets, companies or sectors, and the ability of the Investment Manager to fulfil the investment objective of the Fund may therefore be constrained.

Contracts for Differences

The Fund may enter into contracts for differences. In these transactions, the Fund and another party assume price positions in reference to an underlying security or other financial instrument. The "difference" is determined by comparing each party's original position with the market price of such securities or financial instruments at a pre-determined closing date. Each party will then either receive or pay the difference, depending on the success of its investment.

Financial markets for the securities or instruments which form the subject of a contract for differences can fluctuate significantly. Parties to a contract for differences assume the risk that the markets for the underlying securities will move in a direction unfavourable to their original positions. In addition, these contracts often involve considerable economic leverage. As a result, such contracts can lead to disproportionately large losses as well as gains and relatively small market movements can have large impacts on the value of the investment.

Exchange Rate Risk

The Fund Base Currency is the US Dollar. Share classes denominated in a currency different to the Fund Base Currency (with the exception of the Hedged Share Classes) will not be hedged against the Fund Base Currency and will, accordingly be subject to exchange rate risk in relation to the Fund Base Currency.

Profile of a Typical Investor

Suitable for investors seeking to achieve long-term capital appreciation, principally (although not exclusively) through investment in listed equity securities on a worldwide basis and who are willing to accept a medium to higher level of volatility.

Management and Administration

Detailed descriptions of the Directors and service providers to the Company are set out in the Prospectus.

FEES AND EXPENSES

Establishment Costs

All fees and expenses relating to the establishment of the Fund and the fees of the professional advisers to the Fund (establishment expenses) not exceeding US\$60,000 will be borne by the Fund. To the extent that such fees and expenses are borne by the Fund, they will be amortised over the first 60 months of the lifetime of the Fund or such other period as the Directors may determine and will be charged as between the various classes thereof established by the Company within the amortisation period and in such manner as the Directors (with the consent of the Depositary) deem fair and equitable, provided that each class thereof will bear its own direct establishment costs and provided that such proportion of the establishment expenses as are to be amortised in each year are subject to the annual expense cap set out in the section entitled "*Other Expenses Cap*" below. If the effect of this accounting treatment becomes material in the future and there is a requirement to write off the unamortised balance of establishment and organisational costs, the Directors will reconsider this policy.

Share Class Fees and Charges

Details of certain fees and charges applicable to each class of Shares (including the Annual Management Fee and the maximum percentage fees payable on subscription, redemption and conversion) are set out in the tables included in Appendix I to this Supplement.

In addition to those fees and charges set out in the tables included in Appendix I to this Supplement, a Cash Management Fee and/or a Currency Management Fee and/or a Performance Fee may also be

chargeable in respect of a class of Shares to the extent provided for in the sub-sections below entitled "*Cash Management Fee*", "*Currency Management Fee*" and "*Performance Fee*".

Cash Management Fee

The Cash Manager will be entitled to receive a fee of 0.10% per annum calculated on the cash component of the Net Asset Value of each class of Shares subject to a minimum monthly fee of Stg£3,333 plus VAT. Such fee shall be calculated monthly and shall be payable monthly in arrears directly out of the assets of the Fund.

Where the Investment Manager acts as the Cash Manager, the foregoing fee will be in addition to the fee it receives from the Manager in its capacity as Investment Manager to the Fund, but may be waived in whole or in part at its sole discretion.

Currency Management Fee

Each of the Hedged Share Classes shall bear its attributable portion of the fees payable to the Currency Manager. The Currency Manager has been engaged to facilitate the carrying out of foreign exchange transactions for the purpose of hedging the exposure of each Hedged Share Class to changes in the rate of exchange between the currency in which that Hedged Share Class is denominated and the Fund Base Currency. The fees payable to the Currency Manager are as set out in the Prospectus.

Performance Fee

The Manager is also entitled (in addition to any other fee to which it is entitled in accordance with the terms of this Supplement) to receive a monthly performance fee (the "Performance Fee") in respect of the A classes, the AP classes, the B (Advised) classes, and the C classes equal to 20% of the Net Gain, if any, in excess of the relevant Share class' "High Water Mark" (as defined below) during the corresponding "Performance Period" (again as defined below).

The Manager is also entitled to receive a monthly Performance Fee in respect of each of the L classes and the EA classes, equal to 10% of the Net Gain, if any, in excess of the relevant Share class' High Water Mark during the corresponding Performance Period.

No Performance Fee will be charged to the assets of the X classes.

In each case, the Performance Fee will be calculated for each "Performance Period", which will end on the last day Business Day of each calendar month and will begin on the earlier of (i) the end of the last Business Day of the previous month or (ii) the last Business Day that a Performance Fee was payable or, for a Share class' initial Performance Period, the first Business Day following closure of that Share class' Initial Offer Period.

The "Net Gain" is the difference between the Net Asset Value of the relevant Share class (before deduction of any performance fee) as at the last Valuation Point for the relevant Performance Period and the relevant Share class' High Water Mark recorded at the end of the previous Performance Period (or the initial offer price, in the case of the first Performance Period), adjusted for subscriptions and redemptions.

A Performance Fee will be payable in respect of a particular Share class only to the extent that gains in the relevant Share class' Net Asset Value (before deduction of any performance fee) as at the end of the relevant Performance Period exceeds the High Water Mark. The "High Water Mark" is the greater of: (i) the highest Net Asset Value per Share of the relevant Share class (after deduction of any applicable Performance Fee and any applicable dividend) on the last Valuation Point for any previous Performance Period for which a Performance Fee was payable; or in circumstances where a Performance Fee has not previously been paid in respect of the relevant Share class (ii) the Initial Offer Price per Share of the relevant class.

The High Water Mark will be adjusted for any appropriate dividend paid.

The Performance Fee will be accrued weekly and payable as of the end of the relevant Performance Period. Any Performance Fee accrued in respect of Shares redeemed during a Performance Period shall be realised and become payable at the point of redemption.

The Performance Fee shall be calculated independently by the Administrator and verified by the Depositary.

Performance Fee Risks

The Manager may receive a Performance Fee from the Fund. The Manager may allot a portion of this fee to the Investment Manager. The Performance Fee theoretically may create an incentive for the Investment Manager to make investments that are riskier or more speculative than would be the case if a performance fee arrangement were not in effect. In addition, the Performance Fee is calculated on the basis of net realised and net unrealised gains and losses at the end of each Performance Period and as a result Performance Fees may be paid on unrealised gains which may subsequently never be realised.

The Performance Fee is a Net Asset Value based fee and, as a result, equalisation will not apply. Therefore, in circumstances where a Performance Fee is payable in respect of a particular Performance Period, Shareholders who acquired Shares of the relevant class after commencement of that Performance Period will be liable to pay a Performance Fee based on the performance of those Shares over the entire Performance Period rather than on the performance of those Shares over the period during which they held the Shares.

Other Expenses Cap

Each class of Shares shall also bear its attributable portion of the other expenses of the Company (as set out in detail under the heading "*Other Expenses*" in the section of the Prospectus entitled "*Fees and Expenses*") subject to a cap of 0.30% per annum of the Net Asset Value of the Fund. The Manager will be responsible for any such expenses in excess of this limit with the exception of the expenses of acquiring and disposing of Investments (including brokerage expenses, custodial and sub-custodial transaction charges, stamp duties and other relevant taxes).

For the avoidance of doubt, the Manager will not be responsible for the costs of hedging currency exposure for the benefit of any particular Hedged Share Class of the Fund, which costs shall be attributable exclusively to the relevant Hedged Share Class.

APPENDIX I

Share Class Details

Distributing Share Classes									
Dividends in respect of the Distributing Classes, where paid, will normally be paid in April and October of each year. Please also refer to the heading "Dividend Policy" in the Prospectus.

Accumulating Share Classes

Dividends will not be paid in respect of the Accumulating Classes.
Income and profits, if any, attributable to a particular Accumulating Class will be accumulated in the Fund on behalf of Shareholders of the relevant Accumulating Class and will be reflected in the Net Asset Value of that Accumulating Class.

Notes:

- (1) Other than in exceptional circumstances, dealing and settlement will only take place in the currency in which the relevant Shares are denominated. Investors who wish to deal or settle in a currency different to the currency in which the relevant Shares are denominated should refer to the "Dealing/Settlement Currency" section of the 'Dealing Information' table in Appendix II.

Hedged Share Classes are denoted in this table by the inclusion of '(Hedged)' immediately following the relevant Share class currency. Please refer to the section of this Supplement entitled "Currency Hedging Policy" for further information in respect of Hedged Share Classes.

- (2) shareholders and investors are referred to the table below entitled "Share Class Types" for specific information (if any) pertaining to particular class types.
- (3) or the equivalent amount in the currency in which the relevant class of Shares is denominated (or less at the discretion of the Manager).
- (4) being a percentage per annum of the Net Asset Value attributable to the relevant class of Shares. The Annual Management Fee is accrued weekly based on the weekly Net Asset Value attributable to the relevant class of Shares and is paid to the Manager monthly in arrears. The Manager is also entitled to be reimbursed by the Fund for its reasonable out-of-pocket expenses. The Manager is responsible for discharging the fees and expenses of the Investment Manager, the Promoter and the Distributors out of the fees it receives from the Fund.
- (5) the Directors may, in their absolute discretion and in respect of each subscription for Shares, charge a preliminary fee of up to the amount specified, being a percentage of the Net Asset Value of the Shares subscribed. This preliminary fee shall be paid to the Manager. The Manager may pay all or any part of the preliminary fee to financial intermediaries assisting with the sale of Shares in the Fund.
- (6) the Directors may, in their absolute discretion and in respect of each redemption of Shares, charge a redemption fee of up to the amount specified, being a percentage of the Net Asset Value of the redeemed Shares.

A redemption fee will only be charged if the Directors believe that the redeeming Shareholder: (i) is engaged in short term trading in a manner which is considered by the Directors, in their absolute discretion, to be inappropriate and/or not in the best interests of the Fund's Shareholders or

(ii) is attempting any form of arbitrage on the yield of the Shares.

(7) the Directors may, in their absolute discretion, charge a switching fee of up to 1% of the Net Asset Value of the Shares to be switched.

(8) The continuing Initial Offer Period for this Share class shall end at 5.00 pm (Irish time) on 16 August 2017 unless such period is shortened or extended by the Directors and notified to the Central Bank.

See the table below entitled "*Share Class Initial Offer Price*" for details of the price per Share at which Shares may be subscribed during the Initial Offer Period.

Applications for Shares during the Initial Offer Period must be received (together with cleared funds and all required anti-money laundering documentation) during the Initial Offer Period. All applicants for Shares during the Initial Offer Period must complete (or arrange to have completed under conditions approved by the Directors) the Application Form.

Share Class Initial Offer Price	
Share Classes	Initial Offer Price
All CHF denominated classes	CHF100
All EUR denominated classes	€100
All GBP denominated classes	Stg£100
All USD denominated classes	US\$100

Share Class Types	
B Advised Classes	Shares in the B Advised Classes may only be acquired or held by an investor who has received advice in respect of his investment in the relevant class(es) from a wealth manager, private bank or equivalent.
C Classes	The Annual Management Fee charged in respect of Shares of the C Classes is a "clean fee" insofar as it does not include any provision to cover the payment of rebates to the holders of such Shares or the payment of retrocessions, commissions or other monetary benefits to third parties involved in the distribution of such Shares.
EA Classes	<p>The Annual Management Fee and the Performance Fee chargeable in respect of Shares of the EA Classes has been set at a rate intended to attract assets into the Fund. It is therefore intended that the EA Classes will only be available for investment, in accordance with the provisions set out below, for a limited period following publication of this Supplement.</p> <p>The Directors may at their discretion close the EA Classes, or any of them, to all further subscriptions, from both Shareholders and new investors, once the Net Asset Value of the Fund has reached US\$100 million (or such other amount as the Directors may at their discretion determine).</p> <p>Once the Directors have exercised their discretion to close the EA Classes, or any of them, to further subscriptions in accordance with the preceding paragraph, a notice to that effect will be published on the Promoter's website at www.lazardassetmanagement.com.</p> <p>Shares of the EA Classes can be redeemed at any time in accordance with the normal redemption procedures set out in the section entitled "<i>Redemption Procedure</i>" in Appendix II of this Supplement.</p>
L Classes	<p>The Annual Management Fee and the Performance Fee chargeable in respect of Shares of the L Classes has been set at a rate intended to attract assets into the Fund. It is therefore intended that the L Classes will only be available for investment, in accordance with the provisions set out below, for a limited period following publication of this Supplement.</p> <p>Following closure of the Initial Offer Period of the first of the L Classes to be launched (the "First L Class"), subscriptions for Shares of any of the L Classes will only be accepted from Shareholders of the First L Class and only for a period of 12 calendar months following the date on which the First L Class launched (or for such longer or shorter period as the Directors may determine at their discretion and notify to the relevant Shareholders).</p> <p>Shares of the L Classes can be redeemed at any time in accordance with the normal redemption procedures set out in the section entitled "<i>Redemption Procedure</i>" in Appendix II of this Supplement.</p>
X Classes	<p>Shares in the X Classes may only be acquired or held by an investor who is party to a current Investor Agreement (as such term is defined below).</p> <p>No transfer of Shares of the X Classes may be made unless the proposed transferee is party to a current Investor Agreement.</p> <p>No Annual Management Fees are charged in respect of the X Classes. Shareholders in the X Classes are subject to a fee with regard to their investment in the Fund based on the Investor Agreement to which they are party.</p> <p>The Company reserves the right, at the request of the Manager, to repurchase the entire holding of shares of any X Class Shareholder (deducting any amount owed for unpaid investment management fees), if the Investor Agreement to which the relevant Shareholder is party is terminated for any reason whatsoever.</p> <p>For the purpose of this section:</p> <p>"<i>Investor Agreement</i>" means an agreement between the Investment Manager, or a Lazard Affiliate, and an investor under which the investor has appointed the Investment Manager or such Lazard Affiliate to carry out investment management or advisory services on its behalf.</p> <p>"<i>Lazard Affiliate</i>", means a company which has the ultimate parent of the Investment Manager as its ultimate parent, or a company in which that company has at least 50% direct or indirect ownership.</p>

APPENDIX II

Dealing Information	
Business Day	a day normally treated as a business day in Dublin, London and New York.
Cut-Off Time	12.00 noon (Irish time) on the third Business Day prior to the relevant Dealing Day* * being the point in time on a Business Day up until which applications for subscriptions, switches, transfers and redemptions will be accepted.
Dealing Contact Details	<p>Address: Lazard Global Investment Funds plc Sub-Fund: Lazard Global Hexagon Equity Fund Lazard Fund Managers (Ireland) Limited c/o State Street Fund Services (Ireland) Limited Transfer Agency Department 78 Sir John Rogersons Quay Dublin 2 D02 HD32 Ireland</p> <p>Tel: +353 1 242 5421 Fax: +353 1 523 3720 Email: LazardTA@statestreet.com</p>
Dealing Day	the first Business Day of each week and/or such other Business Day as the Directors may with the consent of the Depositary determine and notify in advance to Shareholders provided there should be at least one Dealing Day per fortnight.
Dealing/Settlement Currency	<p>Other than in exceptional circumstances, dealing and settlement will only take place in the currency of denomination of the relevant Share class.</p> <p>However, where payments in respect of the purchase or redemption of Shares or dividend payments are tendered or requested in a currency other than the currency of denomination of the relevant Share class, any necessary foreign exchange transactions will be arranged by the Administrator for the account of and at the risk and expense of the relevant investor:</p> <p>(i) in the case of subscriptions, at the time cleared funds are received;</p> <p>(ii) in the case of redemptions, at the time the request for redemption is received and accepted; and</p> <p>(iii) in the case of dividends, at the time of payment.</p> <p>The exchange rate applicable to all such transactions shall be the prevailing exchange rate quoted by the Administrator's bankers.</p>
Fund Base Currency	US Dollar (USD)
Settlement Deadline (for receipt of subscription monies)	<p>normally, close of business on the relevant Dealing Day. However, the Manager may accept later subscription payments at its sole discretion provided that settlement of all subscriptions takes place no later than the relevant Dealing Day.**</p> <p>** Subscription payments net of all bank charges must be made in the currency in which the order was placed and should be paid by telegraphic transfer to the bank account specified at the time of dealing.</p>
Settlement Deadline (for payment of redemption proceeds)	<p>within five (5) Business Days of the Dealing Day on which the redemption is effected***</p> <p>*** provided that all required documentation has been furnished to the Administrator and any matters requiring verification (e.g. account details) have been duly verified.</p>

	<p>In the case of a partial redemption of a Shareholder's holding, the Administrator will advise the Shareholder of the remaining Shares held.</p> <p>Redemption payments will be sent by telegraphic transfer to the bank account detailed on the Application Form or as subsequently notified to the Administrator by original written notification.</p>
Share Price	<p>Shares can be bought and sold on any Dealing Day at the relevant Net Asset Value per Share.****</p> <p>**** a sum which the Directors consider represents an appropriate figure for Duties and Charges (in practice, an anti-dilution levy) may be charged to a subscribing / redeeming investor at the Directors' discretion where such investor submits a large subscription or redemption request and the Directors believe it is in the best interests of the other Shareholders of the Fund to levy such Duties and Charges.</p> <p>Additionally, a preliminary fee may be charged on subscription and a redemption fee on redemption, but only in accordance with the terms specified in Appendix I of this Supplement.</p>
Share Price Publication	<p>the latest Net Asset Value per Share, expressed in the currency of denomination of the relevant Share class, will be available during normal business hours every Business Day at the offices of the Administrator and the Promoter and will be published on the Promoter's website at www.lazardassetmanagement.com (which must be kept up-to-date).</p>
Valuation Point	<p>4.00 pm (New York time) on the Business Day preceding the relevant Dealing Day.</p>

VALUATION OF ASSETS

The Net Asset Value of the Fund and of each Share class for dealing purposes is calculated by the Administrator once weekly by reference to each Valuation Point for each Dealing Day in accordance with the requirements of the Articles and full details are set out under the heading "*Statutory and General Information*" in the Prospectus.

On each Business Day, not being a day on which the Fund's Valuation Point occurs, the Administrator shall, for reporting purposes only, calculate an indicative Net Asset Value. The indicative Net Asset Value for the Fund and each Share class thereof will be calculated as at 4.00 pm (New York time) on each such Business Day and will be published on the Promoter's website at www.lazardassetmanagement.com.

The indicative Net Asset Value should not be taken or relied on as the price at which Shares are subscribed or redeemed. None of the Company, the Manager, or the Investment Manager, or any of their affiliates, or any third party calculation agents involved in, or responsible for, the calculation or publication of such an indicative Net Asset Value makes any warranty as to its accuracy or shall be liable to any person who relies on the indicative Net Asset Value.

SUBSCRIPTION PROCEDURE

All applicants subscribing for Shares must complete the application form prescribed by the Directors in relation to the Fund ("Application Form") and comply promptly with all necessary money laundering clearance requirements.

An Application Form accompanies this Supplement and sets out the methods by which and to whom the subscription monies should be sent. Application Forms shall (save as determined by the Manager) be irrevocable and may be sent by facsimile to the Administrator at the risk of the applicant.

The original Application Form should be sent to arrive with the Administrator within four Business Days of the date on which the application for Shares was made. All required anti-money laundering documentation (including such original documentation as may be required) should accompany the original Application Form.

Failure to provide the original Application Form and all required anti-money laundering documentation within the time period referred to in the previous paragraph may, at the discretion of the Manager, result in the compulsory redemption of the relevant Shares.

Applicants will be unable to redeem Shares on request until the original Application Form and all required anti-money laundering documentation has been received by the Administrator in a form satisfactory to it, and accepted.

Shareholders may subscribe for further Shares (i.e. post their initial subscription) by sending a fax to the Administrator or by electronic means or by such other means as the Company may permit in accordance with Central Bank Requirements.

All subscription requests received after the Initial Offer Period for the relevant Shares has closed will be dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares subscribed calculated as at the Valuation Point for the Dealing Day on which the subscription is effected).

Applications for Shares received after the Initial Offer Period for such Shares has closed must be received and accepted before the Cut-Off Time for the Dealing Day on which the subscription is to be effected. No application will be considered received and accepted by the Administrator until **(a)** a completed Application Form and **(b)** all required anti-money laundering documentation, have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Any such applications (as referred to in the previous paragraph) received after the Cut-Off Time for the relevant Dealing Day will normally be held over until the next following Dealing Day. However, in exceptional circumstances, applications received after the Cut-Off Time but prior to the Valuation Point for a particular Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for subscription on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next Dealing Day.

If payment in full in cleared funds in respect of a subscription has not been received by the Settlement Deadline specified in the "*Dealing Information*" table above, the Company may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the applicant for any loss suffered by the Fund as a result of the delay or non-clearance. In addition, the Company will have the right to sell or redeem all or part of the applicant's holding of Shares in the Fund or in any other sub-fund of the Company in order to meet those charges.

REDEMPTION PROCEDURE

Every Shareholder will have the right to require the Company to redeem his Shares on any Dealing Day (save during any period when the calculation of the Net Asset Value is suspended in the circumstances set out under the heading "*Temporary Suspension*" in the Prospectus) on furnishing to the Administrator a redemption request. Shares may be redeemed only by application through the Administrator.

All redemption requests are dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares to be redeemed calculated as at the Valuation Point for the Dealing Day on which the redemption is effected).

Redemption requests will only be accepted where cleared funds and completed documents are in place from original subscriptions. No redemption payment will be made until **(a)** the original Application Form and **(b)** all required anti-money laundering documentation (including such original documentation as may be required), have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Redemption requests must be received and accepted before the Cut-Off Time for the Dealing Day on which the redemption is to be effected. Shares will be redeemed at the relevant Net Asset Value on the relevant Dealing Day (less such redemption fee and Duties and Charges, if any, as may be applied). If the redemption request is received after the relevant Cut-Off Time it shall normally be treated as a request for redemption on the Dealing Day following such receipt and Shares will be redeemed at the relevant Net Asset Value for that day (less such redemption fee and Duties and Charges, if any, as may be applied). However, in exceptional circumstances, redemption requests received after the Cut-Off Time, but prior to the Valuation Point for the relevant Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the

Manager. Any request for redemption on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next following Dealing Day.

Redemption requests shall (save as determined by the Manager) be irrevocable and may, at the risk of the relevant Shareholder, be given by fax, by post, by electronic means or by such other means as the Company may permit in accordance with Central Bank Requirements.

Compulsory Redemption

The Manager shall have the right to redeem compulsorily any Share at the Redemption Price or to require the transfer of any Share to a Qualified Holder if in its opinion (i) such Share is held by a person other than a Qualified Holder; or (ii) the redemption or transfer (as the case may be) would eliminate or reduce the exposure of the Company or the Shareholders to adverse tax or regulatory consequences.

Switching

Details in respect of switching are set out in detail under the heading "*Switching*" in the Prospectus.

Transfers

The conditions relating to transfers of Shares are set out in the Prospectus.
