LAZARD GLOBAL FIXED INCOME FUND

INTRODUCTION

The Company is authorised in Ireland by the Central Bank as a UCITS for the purposes of the Regulations. The Fund was approved by the Central Bank under the name “Lazard Global High Quality Bond Fund” on 20 November 2001.

This Supplement forms part of the Prospectus and should be read in conjunction with the general description of the Company contained in the current Prospectus (together with the most recent annual and semi-annual reports).

The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of shares with one or more classes representing a separate fund of the Company. Each fund may have more than one share class.

Details of the available classes of Shares in this Fund are set out in **Appendix I** to this Supplement.

As at the date of this Supplement, there are no other Share classes in the Fund apart from those listed in Appendix I, but additional share classes may be added in the future in accordance with Central Bank Requirements.

The base currency of the Fund is the US Dollar. Share classes denominated in a currency different to the Fund’s base currency (with the exception of the Hedged Share Classes) will not be hedged against movements in the base currency of the Fund.

Dealing information, including a description of the procedures for subscribing and redeeming Shares, settlement deadlines, dealing frequency and pricing is set out in **Appendix II** to this Supplement.

An investment in the Fund should be viewed as medium to long term and should not constitute a substantial portion of an investment portfolio and may not be suitable for all investors.

Investment Objective and Policy

Investment Objective

The investment objective of Lazard Global Fixed Income Fund is to seek maximum total return from a combination of current income and capital appreciation.

Investment Policy

The Fund aims to build and maintain a globally diversified portfolio consisting of Debt Instruments, which are primarily Investment Grade, currency forwards, non-deliverable currency forwards and other assets. The full range of assets in which the Fund may invest are set out in the section entitled “*Investments*” below.

The index against which the Fund compares its performance is the Bloomberg Barclays Global Aggregate Bond Index (the “Benchmark Index”). The Benchmark Index provides a broad-based measure of the global investment-grade fixed income markets. The Directors reserve the right, if they consider it in the interests of the Fund to do so and with the consent of the Depositary, to substitute another index for the Benchmark Index, in the circumstances set out in the section of the Prospectus entitled “Benchmark Indices”.

In selecting Investments and determining allocations, the Investment Manager assesses the relative value of individual securities based upon its macroeconomic view of such factors as global interest rates, yield curves, sector spreads, and currencies. This is combined with a disciplined portfolio construction process designed to ensure sufficient diversification and liquidity across the portfolio. Country allocations and sector exposures are not constrained by the Benchmark Index. The portfolio

may tactically invest in and/or seek exposure to securities, currencies and countries outside the Benchmark Index with a view to seeking enhanced returns and diversifying risk.

The Fund may invest in excess of 20% of its Net Asset Value in emerging markets.

In seeking to achieve the Fund's investment objective, the Investment Manager may employ a variety of investment techniques that may be used to hedge various market risks (such as interest rates, currency exchange rates and broad or security-specific changes in the prices of securities), or opportunistically to exploit mis-pricings in the securities markets.

There are no restrictions on the Fund's average portfolio maturity or on the maturities of the individual debt and income producing securities in which the Fund may invest.

Investments

In pursuit of its investment objective, the Fund will build and maintain a globally diversified portfolio consisting of the following categories of Investments:

- fixed and/or floating rate, multi-currency denominated Investment Grade, Non-Investment Grade and Unrated bonds and other Debt Instruments issued by companies or by governments, government agencies, quasi sovereign entities or supranational bodies throughout the world. Such securities will primarily be Investment Grade, but the Investment Manager may at any time seek to enhance returns and diversify risk by tactically investing in securities which are Non-Investment Grade or Unrated. No more than 15% in aggregate of the total percentage Net Asset Value allocated to investment in Debt Instruments, will be invested in Debt Instruments which are Non-Investment Grade or Unrated;
- units or shares of open ended collective investment schemes which provide exposure consistent with the investment policy of the Fund, including exchange traded funds. Aggregate investment by the Fund in open ended collective schemes shall not exceed 10% of the Fund's Net Asset Value at any time;
- financial derivative instruments ("FDI"), as described further below; and
- cash and cash equivalents. Under normal circumstances, the Fund may invest up to 10% of its Net Asset Value in cash (exclusive of cash held for the settlement of transactions) and cash equivalents, such as treasuries, money market instruments and units/shares of money market funds which satisfy the requirements of the Central Bank for investment by a UCITS. A higher percentage of the Fund's Net Asset Value may be invested in cash and cash equivalents to the extent considered appropriate by the Investment Manager in light of market conditions.

The securities in which the Fund will invest shall, subject to the Regulations, be listed or traded on the Regulated Markets set out in Appendix I of the Prospectus. Investment in securities listed or traded in Russia shall not exceed 5% of the Fund's Net Asset Value at any time and shall be limited to securities that are listed or traded on the Moscow Exchange.

All of the Fund's investments will be made in accordance with the restrictions set out in Appendix III of the Prospectus.

Investment in FDI

Subject to the conditions and within the limits laid down by the Central Bank, the Fund may engage in transactions in FDI for hedging purposes (for example, to protect an asset against, or minimise liability from, fluctuations in market value or foreign currency exposures) and for efficient portfolio management purposes (with a view to achieving a reduction in risk, a reduction in costs, or an increase in capital or income returns within a level of risk consistent with the risk profile of the Fund).

The FDI in which the Fund may invest are:

- currency forwards, including non-deliverable currency forwards, which may be used to gain exposure to foreign currency markets, and/or to protect against fluctuations in the relative value of the Fund's portfolio positions as a result of changes in currency exchange rates;
- currency and interest rate futures contracts, which may be used to hedge against anticipated future changes in foreign exchange rates or interest rates which might otherwise affect the value of the Fund expressed in its base currency;
- currency options, which may be used to hedge against currency exchange risk arising at the level of the Fund's portfolio; and
- index futures and/or swaps, both of which may be used to provide exposure consistent with the Fund's investment policy more efficiently from a cost and timing perspective, without having to invest directly in the reference assets.

The Fund will only invest in FDI in accordance with the risk management process ("RMP") for the Company currently approved by the Central Bank. The Company's RMP does not currently allow for investment in futures or options. Therefore no investment in futures or options will be made until such time as the RMP has been appropriately updated and approved by the Central Bank.

The Fund may invest in FDI that are dealt in over-the-counter or which are listed or traded on the Regulated Markets set out in Appendix I to the Prospectus. Investments in FDI shall be in accordance with the provisions of Appendix II of the Prospectus.

The Fund's global exposure, being the incremental exposure and leverage generated by the Fund through its use of FDI, including embedded derivatives, will be calculated on at least a daily basis using the commitment approach and may at no time exceed 100% of the Fund's Net Asset Value.

Currency Hedging Policy

The Fund may engage in currency hedging transactions, including investments in FDI, in order to provide protection against exposure to currency risk arising at the level of its portfolio holdings (as described further below) and at Share class level. There can be no guarantee however that such currency hedging transactions will be successful or effective in achieving their objective.

Hedging at Portfolio Level

The Fund may engage in currency hedging transactions, including investment in FDI, in order to protect the value of specific portfolio positions or in anticipation of changes in the relative values of the currencies in which current or future Fund portfolio holdings are denominated or quoted. For example, the Fund may engage in currency hedging transactions in order to offset the currency exposure arising as a result of Investments in its portfolio being denominated in currencies different from its base currency, or to protect against movements in currency exchange rates between the date on which the Investment Manager contracts to purchase or sell a security and the settlement date for the purchase or sale of that security, or to "lock in" the equivalent of a dividend or interest payment in another currency. There can be no guarantee however that such currency hedging transactions will be successful or effective in achieving their objective.

Hedging at Share Class Level

The Fund may also engage in currency hedging transactions in order to provide protection against movements of the currency in which a Share class is denominated relative to the Fund's base currency, where different. To the extent that such hedging transactions are successful, the performance of the relevant Hedged Share Class is likely to move in line with the performance of the Fund's Investments and Shareholders of the Hedged Share Class will not benefit as a result of a decline in the value of the currency in which the class is denominated relative to the base currency of the Fund or relative to the currencies in which the assets of the Fund are denominated. To the extent

that the Fund employs strategies aimed at hedging certain Share classes, there can be no assurance that such strategies will be effective.

The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging currency exposure for the benefit of any particular Hedged Share Class of the Fund shall be attributable exclusively to the relevant Share class.

Currency exposure will not exceed 105% of the Net Asset Value of the relevant Hedged Share Class. All transactions will be clearly attributable to the relevant Hedged Share Class and currency exposures of different Share classes will not be combined or offset. The Company will have procedures in place to monitor hedged positions and to ensure that over-hedged positions do not exceed 105% of the Net Asset Value of the relevant Hedged Share Class and that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant Hedged Share Class. As part of this procedure, the Company will review hedged positions in excess of 100% of the Net Asset Value of the relevant Hedged Share Class and any under-hedged positions on at least a monthly basis to ensure they are not carried forward from month to month. While not the intention of the Company, overhedged or underhedged positions may arise due to factors outside the control of the Company.

Investment and Borrowing Restrictions

The Company is a UCITS and accordingly the Fund is subject to the investment and borrowing restrictions set out in the Regulations and Central Bank Requirements. These restrictions are set out in detail in Appendix III to the Prospectus.

Risk Factors

Shareholders and potential investors should consider and take account of the risk factors set out in the Prospectus, in addition to that set out below:

Exchange Rate Risk

The Fund may engage in foreign currency transactions in order to hedge against currency exchange risk at the level of its portfolio holdings and, where relevant, at Share class level, however there is no guarantee that hedging or protection will be achieved. This strategy may also limit the Fund from benefiting from the performance of the Fund's securities if the currency in which the securities held by the Fund are denominated rises against the Fund's base currency. In the case of a Hedged Share Class (denominated in a currency different from the Fund's base currency), this risk applies systematically.

The base currency of the Fund is the US Dollar. Share classes denominated in a currency different to the Fund's base currency (excluding the Hedged Share Classes) will not be hedged against the base currency of the Fund and will accordingly, be subject to exchange rate risk in relation to the Fund's base currency.

Profile of a Typical Investor

The Fund is suitable for retail and institutional investors over the medium to long term seeking to achieve an attractive level of return over a broad global bond index from an actively managed portfolio of diversified global government bonds and other Debt Instruments and who are willing to tolerate a medium level of volatility.

Management and Administration

Detailed descriptions of the Directors and service providers to the Company are set out in the Prospectus.

FEES AND EXPENSES

Share Class Fees and Charges

Details of the fees and charges applicable to each class of Shares (including the Annual Management Fee and the maximum percentage fees payable on subscription, redemption and conversion) are set out in the tables included in Appendix I to this Supplement.

In addition to those fees and charges, each of the Hedged Share Classes shall bear its attributable portion of the fees payable to the Bank Administrator. The Bank Administrator has been engaged to facilitate the carrying out of foreign exchange transactions for the purpose of hedging the exposure of each Hedged Share Class to changes in the rate of exchange between the currency in which that Hedged Share Class is denominated and the base currency of the Fund. The fees payable to the Bank Administrator are as set out in the Prospectus.

Other Expenses Cap

Each class of Shares of the Fund shall bear its attributable proportion of the other expenses of the Company (as are set out in detail under the heading "*Other Expenses*" in the section of the Prospectus entitled "*Fees and Expenses*") subject to a cap of 0.30% per annum of the Net Asset Value of the Fund. The Manager will be responsible for any expenses in excess of this limit with the exception of the expenses of acquiring and disposing of Investments (including brokerage expenses, custodial and sub-custodial transaction charges, stamp duties and other relevant taxes). Additionally, the Manager will not be responsible for the costs of hedging currency exposure for the benefit of any particular Share class of the Fund, which costs shall be attributable exclusively to the relevant Share class.

VALUATION OF ASSETS

The Net Asset Value of the Fund and of each Share class will be calculated by the Administrator as at each Valuation Point in accordance with the requirements of the Articles and full details are set out under the heading "*Statutory and General Information*" in the Prospectus.

Applications for subscriptions and redemptions properly received will be processed on a Dealing Day. The Net Asset Value of the Fund and of each Share class will be available on each Valuation Day, whether such Valuation Day is a Dealing Day or not.

SUBSCRIPTION PROCEDURE

All applicants subscribing for Shares must complete the application form prescribed by the Directors in relation to the Fund ("**Application Form**") and comply promptly with all necessary money laundering clearance requirements.

An Application Form accompanies this Supplement and sets out the methods by which and to whom the subscription monies should be sent. Application Forms shall (save as determined by the Manager) be irrevocable and may be sent by facsimile to the Administrator at the risk of the applicant.

The original Application Form should be sent to arrive with the Administrator within four Business Days of the date on which the application for Shares was made. All required anti-money laundering documentation (including such original documentation as may be required) should accompany the original Application Form.

Failure to provide the original Application Form and all required anti-money laundering documentation within the time period referred to in the previous paragraph may, at the discretion of the Manager, result in the compulsory redemption of the relevant Shares.

Applicants will be unable to redeem Shares on request until the original Application Form and all required anti-money laundering documentation has been received by the Administrator in a form satisfactory to it, and accepted.

Shareholders may subscribe for further Shares (i.e. post their initial subscription) by telephoning or sending a fax to the Administrator or by such other means as the Company may permit. Telephone dealing will be recorded by the Administrator.

All subscription requests received after the Initial Offer Period for the relevant Shares has closed will be dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares subscribed calculated as at the Valuation Point for the Dealing Day on which the subscription is effected).

Applications for Shares received after the Initial Offer Period for such Shares has closed must be received and accepted before the Cut-Off Time for the Dealing Day on which the subscription is to be effected. No application will be considered received and accepted by the Administrator until **(a)** a completed Application Form and **(b)** all required anti-money laundering documentation, have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Any such applications (as referred to in the previous paragraph) received after the Cut-Off Time for the relevant Dealing Day will normally be held over until the next following Dealing Day. However, in exceptional circumstances, applications received after the Cut-Off Time but prior to the Valuation Point for a particular Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for subscription on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next Dealing Day.

If payment in full in cleared funds in respect of a subscription has not been received by the Settlement Deadline specified in the "*Dealing Information*" table above, the Company may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the applicant for any loss suffered by the Fund as a result of the delay or non-clearance. In addition, the Company will have the right to sell or redeem all or part of the applicant's holding of Shares in the Fund or in any other sub-fund of the Company in order to meet those charges.

REDEMPTION PROCEDURE

Every Shareholder will have the right to require the Company to redeem his Shares on any Dealing Day (save during any period when the calculation of the Net Asset Value is suspended in the circumstances set out under the heading "*Temporary Suspensions*" in the Prospectus) on furnishing to the Administrator a redemption request. Shares may be redeemed only by application through the Administrator.

All redemption requests are dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares to be redeemed calculated as at the Valuation Point for the Dealing Day on which the redemption is effected).

Redemption requests will only be accepted where cleared funds and completed documents are in place from original subscriptions. No redemption payment will be made until **(a)** the original Application Form and **(b)** all required anti-money laundering documentation (including such original documentation as may be required), have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Redemption requests must be received and accepted before the Cut-Off Time for the Dealing Day on which the redemption is to be effected. Shares will be redeemed at the relevant Net Asset Value for the relevant Dealing Day (less such redemption fee and Duties and Charges, if any, as may be applied). If the redemption request is received after the relevant Cut-Off Time it shall normally be treated as a request for redemption on the Dealing Day following such receipt and Shares will be redeemed at the relevant Net Asset Value for that day (less such redemption fee and Duties and Charges, if any, as may be applied). However, in exceptional circumstances, redemption requests received after the Cut-Off Time, but prior to the Valuation Point for the relevant Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for redemption on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next following Dealing Day.

Redemption requests shall (save as determined by the Manager) be irrevocable and may, at the risk of the relevant Shareholder, be given by telephone, fax or by post or by such other means as the Company may permit in accordance with Central Bank Requirements.

Compulsory Redemption

The Manager shall have the right to redeem compulsorily any Share at the Redemption Price or to require the transfer of any Share to a Qualified Holder if in its opinion (i) such Share is held by a person other than a

Qualified Holder; or (ii) the redemption or transfer (as the case may be) would eliminate or reduce the exposure of the Company or the Shareholders to adverse tax or regulatory consequences.

Switching

Details in respect of switching are set out in detail under the heading “*Switching Between Share Classes and Funds*” in the Prospectus.

Transfers

The conditions relating to transfers of Shares are set out in the Prospectus.
