*"Share(s)"*, share(s) of the Fund.

# LAZARD GLOBAL LISTED INFRASTRUCTURE EQUITY FUND

## INTRODUCTION

The Company is authorised in Ireland by the Central Bank as a UCITS for the purposes of the Regulations. The Fund was approved by the Central Bank on 30 December 2011.

This Supplement forms part of the Prospectus and should be read in conjunction with the general description of the Company contained in the current Prospectus (together with the most recent annual and semi-annual reports).

The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of shares with one or more classes representing a separate fund of the Company. Each fund may have more than one share class.

Details of the available classes of Shares in this Fund are set out in **Appendix I** to this Supplement.

As at the date of this Supplement, there are no other Share classes in the Fund apart from those listed in Appendix I, but additional share classes may be added in the future in accordance with Central Bank Requirements.

The base currency of the Fund is Sterling. Share classes denominated in a currency different to the Fund's base currency (with the exception of the Hedged Share Classes) will not be hedged against movements in the base currency of the Fund.

Dealing information, including a description of the procedures for subscribing and redeeming Shares, settlement deadlines, dealing frequency and pricing is set out in **Appendix II** to this Supplement.

Shareholders should note that, where all or some of the Fund's fees and expenses are charged to the capital of the Fund, it will have the effect of lowering the capital value of Shareholders' investment in the Fund. Shareholders in the Fund should therefore note that on redemption of a holding in the Fund they may not receive back the full amount invested.

**An investment in the Fund should be viewed as medium to long term and should not constitute a substantial portion of an investment portfolio and may not be suitable for all investors.**

## Investment Objective and Policy

### Investment Objective

The investment objective of the Fund is to aim to achieve over the long-term total returns comprising income and capital appreciation.

### Investment Policy

The Fund will seek to achieve its investment objective primarily through investment on a global basis in the equities and equity related instruments (namely, common and preferred stock, and depository receipts) of Infrastructure Companies that are listed or traded on the Regulated Markets set out in Appendix I of the Prospectus.

In identifying the Infrastructure Companies to which the Fund will seek exposure, the Investment Manager applies a series of objective filters and qualitative criteria to the general investment universe comprised of Infrastructure Companies and from this produces a preferred list. The stocks of the preferred Infrastructure Companies are then individually assessed and ranked using fundamental bottom up analysis in order to construct the portfolio. The stock selection process also seeks to ensure that the portfolio is diversified across geographic regions and sectors.

In seeking to achieve its investment objective, the Fund may also invest in units or shares of open ended collective investment schemes including exchange traded funds and other funds of the Company which provide equity exposure consistent with the Fund's investment policy. Aggregate investment by the Fund in open ended collective investment schemes shall not exceed 10% of the Fund's Net Asset Value.

In addition, the Fund will be permitted to invest on a global basis in Convertible Securities and in units or shares of listed closed-end funds which provide equity exposure consistent with the Fund's investment policy.

In order to ensure that the Investment Manager retains full flexibility to seek exposure to Infrastructure Companies on a world wide basis, investors should note that in excess of 20% of the Fund's Net Asset Value may be invested in emerging markets (namely, those countries represented from time to time in the MSCI Emerging Markets Index) in circumstances where such markets present opportunities consistent with the Fund's investment policy. Investment in securities listed or traded in Russia shall not exceed 5% of the Fund's Net Asset Value at any time and shall be limited to securities which are listed or traded on the Moscow Exchange.

Although it is intended that the Fund will normally be invested in accordance with the investment policies outlined above, the Investment Manager at all times retains the flexibility to allocate a portion of the Fund's Net Asset Value to cash (exclusive of cash held for the settlement of transactions) in circumstances where it is satisfied that it is in the best interests of the Fund to do so. In such circumstances, the Investment Manager may seek to maximise the value of such cash holdings to the Fund, by investing in cash equivalent securities such as short-term fixed income securities including commercial paper (i.e. investment grade short term paper issued by credit institutions) and money market obligations such as short and medium term treasury bills and treasury notes (both fixed and floating rate), certificates of deposit and bankers acceptances.

The securities in which the Fund intends to invest shall, subject to the Regulations, be listed or traded on the Regulated Markets set out in Appendix I to the Prospectus.

Subject to the conditions and within the limits laid down by the Central Bank, the Fund may also employ techniques and instruments relating to transferable securities, including engaging in transactions in financial derivative instruments ("FDI") for hedging purposes (for example, to protect an asset against, or minimise liability from, fluctuations in market value or foreign currency exposures) and/or for efficient portfolio management purposes (with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns within a level of risk consistent with the risk profile of the Fund). These FDI may be dealt in over the counter or be listed or traded on the Regulated Markets set out in Appendix I to the Prospectus. Investment by the Fund in FDI shall be in accordance with the provisions of Appendix II of the Prospectus and shall be limited to investments in index futures, swaps, currency forward exchange contracts, warrants, rights and, to the extent that they embed a derivative element, to Convertible Securities. The Fund will only invest in such derivative instruments where provided for in the Company's risk management process as approved by the Central Bank.

The Fund's global exposure, being the incremental exposure and leverage generated by the Fund through its use of FDI, shall be calculated on at least a daily basis using the commitment approach and may at no time exceed 40% of the Fund's Net Asset Value.

The currency exposures of the Fund's portfolio will be substantially hedged back into Sterling, being the base currency of the Fund. However the Fund's total foreign currency exposure may not be fully hedged at all times.

## **Benchmark**

Performance of the Fund will be measured against the MSCI World Core Infrastructure Index (the "Benchmark Index").

The Benchmark Index is designed to represent the performance of large and mid-cap securities of listed companies within developed markets (including Australia, Austria, Belgium, Canada, Denmark,

Finland, France, Germany, Hong Kong, Ireland, Israel, Italy, Japan, Netherlands, New Zealand, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, the UK and the US) that are engaged in core industrial infrastructure activities.

The Directors reserve the right, if they consider it in the interests of the Fund to do so and with the consent of the Depositary, to substitute another index for the Benchmark Index, in the circumstances set out in the section of the Prospectus entitled “Benchmark Indices”.

### **Currency Hedging Policy**

The Fund may engage in currency hedging transactions, including investment in FDI, in order to provide protection against exposure to currency risk arising at the level of its portfolio holdings (as described further below) and at Share class level. There can be no guarantee however that such currency hedging transactions will be successful or effective in achieving their objective.

#### *Hedging at Portfolio Level*

The Fund may engage in currency hedging transactions in order to protect the value of specific portfolio positions or in anticipation of changes in the relative values of the currencies in which current or future Fund portfolio holdings are denominated or quoted. For example, the Fund may engage in currency hedging transactions in order to offset the currency exposure arising as a result of Investments in its portfolio being denominated in currencies different from its base currency, or to protect against movements in currency exchange rates between the date on which the Investment Manager contracts to purchase or sell a security and the settlement date for the purchase or sale of that security, or to “lock in” the equivalent of a dividend or interest payment in another currency. There can be no guarantee however that such currency hedging transactions will be successful or effective in achieving their objective.

#### *Hedging at Share Class Level*

The Fund may also engage in currency hedging transactions in order to provide protection against movements of the currency in which a Share class is denominated relative to the Fund’s base currency, where different. To the extent that such hedging transactions are successful, the performance of the relevant Hedged Share Class is likely to move in line with the performance of the Fund’s Investments and Shareholders of the Hedged Share Class will not benefit as a result of a decline in the value of the currency in which the class is denominated relative to the base currency of the Fund or relative to the currencies in which the assets of the Fund are denominated. To the extent that the Fund employs strategies aimed at hedging certain Share classes, there can be no assurance that such strategies will be effective.

The costs and related liabilities/benefits arising from instruments entered into for the purposes of hedging currency exposure for the benefit of any particular Hedged Share Class of the Fund shall be attributable exclusively to the relevant Share class.

Currency exposure will not exceed 105% of the Net Asset Value of the relevant Hedged Share Class. All transactions will be clearly attributable to the relevant Hedged Share Class and currency exposures of different Share classes will not be combined or offset. The Company will have procedures in place to monitor hedged positions and to ensure that over-hedged positions do not exceed 105% of the Net Asset Value of the relevant Hedged Share Class and that under-hedged positions do not fall short of 95% of the portion of the Net Asset Value of the relevant Hedged Share Class. As part of this procedure, the Company will review hedged positions in excess of 100% of the Net Asset Value of the relevant Hedged Share Class and any under-hedged positions on at least a monthly basis to ensure they are not carried forward from month to month. While not the intention of the Company, overhedged or underhedged positions may arise due to factors outside the control of the Company.

## Investment and Borrowing Restrictions

The Company is a UCITS and accordingly the Fund is subject to the investment and borrowing restrictions set out in the Regulations and Central Bank Requirements. These restrictions are set out in detail in Appendix III to the Prospectus.

The Fund will qualify as an "equity fund" for the purpose of the German Investment Tax Act 2018 ("GITA 2018") in that at least 51% of the Fund's Net Asset Value will at all times be invested in equity securities which are listed on a stock exchange or traded on an organised market. For the avoidance of doubt, the term "equity securities" in this particular context does not include units or shares of investment funds or REITs (Real Estate Investment Trusts). Relevant investors should refer to the section of the Prospectus entitled German Taxation for further information on the impact of GITA 2018.

## Risk Factors

Shareholders and potential investors should consider and take account of the risk factors set out in the Prospectus, in addition to those set out below:

### *Infrastructure Companies*

Since the Fund is investing on a global basis in listed equities and equity related instruments of Infrastructure Companies, it may be less diversified than other funds investing in a broader range of industries. Securities and instruments of Infrastructure Companies may be more susceptible to adverse economic, political or regulatory occurrences affecting their industries. Infrastructure Companies may be subject to a variety of factors that may adversely affect their business or operations, including additional costs, competition, regulatory implications and certain other factors.

### *Active Management Risk*

The Investment Manager will identify securities to invest in, rather than investing in a predetermined basket of securities such as an index. The Fund may underperform other investments and products given the style of investing and the longer term view of the Investment Manager of an underlying investment's intrinsic value.

### *Liquidity Risks*

Some securities in which the Fund will invest, especially those companies which have a smaller total market capitalisation, may be thinly traded and, therefore, may have to be sold at a discount from current market prices or sold in small lots over an extended period of time.

### *Global Economic and Market Conditions*

The Investment Manager may invest in currencies and securities traded in various markets throughout the world, including in emerging or developing markets, some of which are highly controlled by governmental authorities. Such investments require consideration of certain risks typically not associated with investing in currencies or securities of developed markets. Such risks include, among other things, trade balances and imbalances and related economic policies, unfavourable currency exchange rate fluctuations, imposition of exchange control regulation by governments, withholding taxes, limitations on the removal of funds or other assets, policies of governments with respect to possible nationalisation of their industries, political difficulties, including expropriation of assets, confiscatory taxation and social, economic or political instability in foreign nations. These factors may affect the level and volatility of securities prices and the liquidity of the Company's Investments. Unexpected volatility or illiquidity could impair the Fund's profitability or result in losses.

The economies of countries differ in such respects as growth of gross domestic product, rate of inflation, currency depreciation, asset reinvestment, resource self-sufficiency and balance of payments position. Further, certain economies are heavily dependent upon international trade and, accordingly, have been and may continue to be adversely affected by trade barriers, exchange controls, managed adjustments in relative currency values and other protectionist measures imposed

or negotiated by the countries with which they trade. The economies of certain countries may be based, predominantly, on only a few industries and may be vulnerable to changes in trade conditions and may have higher levels of debt or inflation.

#### *Exchange Rate Fluctuations; Currency Considerations*

The assets of the Fund will often be invested in securities denominated in currencies other than the base currency of the Fund and any income or capital received by the Fund will be denominated in the local currency of investment. Accordingly, changes in currency exchange rates (to the extent that they are unhedged) will affect the value of the Fund's portfolio and the unrealised appreciation or depreciation of investments. While the Fund will substantially hedge foreign currency exposure back to the base currency of the Fund, cashflows, movements in market values and the use of proxy currencies for some exposures mean that the Fund will generally have some currency risks.

### **Profile of a Typical Investor**

The Fund is suitable for investors over the medium to long term seeking to achieve total returns comprising income and capital appreciation, principally through investment on a global basis in listed equities and equity related instruments within a hedged portfolio where the investment does not constitute a substantial proportion of their portfolio and where the investor is willing to accept the high levels of volatility often associated with equity markets.

### **Management and Administration**

Detailed descriptions of the Directors and service providers to the Company are set out in the Prospectus.

## **FEES AND EXPENSES**

### **Charging Fees and Expenses to Capital**

In recognition of the fact that Shareholders in the Fund may wish to receive a higher level of income from their investment in the Fund than in other Funds of the Company and in recognition that the Fund aims to achieve a reasonable level of capital growth over the longer term, the Fund will charge all the management fees payable by the Fund to capital. Shareholders in the Fund should therefore note that there is a risk that on redemption of a holding in the Fund they may not receive back the full amount they invested.

### **Share Class Fees and Charges**

Details of the fees and charges applicable to each class of Shares (including the Annual Management Fee and the maximum percentage fees payable on subscription, redemption and conversion) are set out in the tables included in Appendix I to this Supplement.

In addition to those fees and charges, each of the Hedged Share Classes shall bear its attributable portion of the fees payable to the Bank Administrator. The Bank Administrator has been engaged to facilitate the carrying out of foreign exchange transactions for the purpose of hedging the exposure of each Hedged Share Class to changes in the rate of exchange between the currency in which that Hedged Share Class is denominated and the base currency of the Fund. The fees payable to the Bank Administrator are as set out in the Prospectus.

#### *Other Expenses Cap*

Each class of Shares of the Fund shall bear its attributable proportion of the other expenses of the Company (as are set out in detail under the heading "*Other Expenses*" in the section of the Prospectus entitled "*Fees and Expenses*") subject to a cap of 0.30% per annum of the Net Asset Value of the Fund. The Manager will be responsible for any expenses in excess of this limit with the exception of the expenses of acquiring and disposing of investments (including brokerage expenses,

custodial and sub-custodial transaction charges, stamp duties and other relevant taxes). Additionally, the Manager will not be responsible for the costs of hedging currency exposure for the benefit of any particular Share class of the Fund, which costs shall be attributable exclusively to the relevant Share class.

### Notes:

- (1) dealing and settlement is facilitated in each of the currencies in which the Shares are denominated. However, investors who wish to deal or settle in a currency different to the currency in which the relevant Shares are denominated should refer to the "Dealing/Settlement Currency" section of the 'Dealing Information' table in Appendix II.  
  
Hedged Share Classes are denoted in this table by the inclusion of '(Hedged)' immediately following the relevant Share class currency. Please refer to the section of this Supplement entitled "Currency Hedging Policy" for further information in respect of Hedged Share Classes.
- (2) shareholders and investors are referred to the table below entitled "Share Class Types" for specific information (if any) pertaining to particular class types.
- (3) or the equivalent amount in the currency in which the relevant class of Shares is denominated (or less at the discretion of the Manager).

- (4) being a percentage per annum of the Net Asset Value attributable to the relevant class of Shares. The Annual Management Fee is accrued daily based on the daily Net Asset Value attributable to the relevant class of Shares and is paid to the Manager monthly in arrears. The Manager is also entitled to be reimbursed by the Fund for its reasonable out-of-pocket expenses. The Manager is responsible for discharging the fees and expenses of the Investment Manager, the Promoter and the Distributors out of the fees it receives from the Fund.
- (5) the Directors may, in their absolute discretion and in respect of each subscription for Shares, charge a preliminary fee of up to the amount specified, being a percentage of the Net Asset Value of the Shares subscribed. This preliminary fee shall be paid to the Manager. The Manager may pay all or any part of the preliminary fee to financial intermediaries assisting with the sale of Shares in the Fund.
- (6) the Directors may, in their absolute discretion and in respect of each redemption of Shares, charge a redemption fee of up to the amount specified, being a percentage of the Net Asset Value of the redeemed Shares.

A redemption fee will only be charged if the Directors believe that the redeeming Shareholder: (i) is engaged in short term trading in a manner which is considered by the Directors, in their absolute discretion, to be inappropriate and/or not in the best interests of the Fund's Shareholders or (ii) is attempting any form of arbitrage on the yield of the Shares.

- (7) the Directors may, in their absolute discretion, charge a switching fee of up to 1% of the Net Asset Value of the Shares to be switched.
- (8) the continuing Initial Offer Period for this Share class shall end at 5.00 pm (Irish time) on 28 December 2018 unless such period is shortened or extended by the Directors and notified to the Central Bank.

See the table below entitled "*Share Class Initial Offer Price*" for details of the price per Share at which Shares may be subscribed during the Initial Offer Period.

Applications for Shares during the Initial Offer Period must be received (together with cleared funds and all required anti-money laundering documentation) during the Initial Offer Period. All applicants for Shares during the Initial Offer Period must complete (or arrange to have completed under conditions approved by the Directors) the Application Form.

<b>Valuation Point</b>	4.00 pm (New York time) on each Dealing Day and on each Valuation Day.

### VALUATION OF ASSETS

The Net Asset Value of the Fund and of each Share class will be calculated by the Administrator as at each Valuation Point in accordance with the requirements of the Articles and full details are set out under the heading "*Statutory and General Information*" in the Prospectus.

Applications for subscriptions and redemptions properly received will be processed on a Dealing Day. The Net Asset Value of the Fund and of each Share class will be available on each Valuation Day, whether such Valuation Day is a Dealing Day or not.

### SUBSCRIPTION PROCEDURE

All applicants subscribing for Shares must complete the application form prescribed by the Directors in relation to the Fund ("**Application Form**") and comply promptly with all necessary money laundering clearance requirements.

An Application Form accompanies this Supplement and sets out the methods by which and to whom the subscription monies should be sent. Application Forms shall (save as determined by the Manager) be irrevocable and may be sent by facsimile to the Administrator at the risk of the applicant.

The original Application Form should be sent to arrive with the Administrator within four Business Days of the date on which the application for Shares was made. All required anti-money laundering documentation (including such original documentation as may be required) should accompany the original Application Form.

Failure to provide the original Application Form and all required anti-money laundering documentation within the time period referred to in the previous paragraph may, at the discretion of the Manager, result in the compulsory redemption of the relevant Shares.

Applicants will be unable to redeem Shares on request until the original Application Form and all required anti-money laundering documentation has been received by the Administrator in a form satisfactory to it, and accepted.

Shareholders may subscribe for further Shares (i.e. post their initial subscription) by telephoning or sending a fax to the Administrator or by such other means as the Company may permit. Telephone dealing will be recorded by the Administrator.

All subscription requests received after the Initial Offer Period for the relevant Shares has closed will be dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares subscribed calculated as at the Valuation Point for the Dealing Day on which the subscription is effected).

Applications for Shares received after the Initial Offer Period for such Shares has closed must be received and accepted before the Cut-Off Time for the Dealing Day on which the subscription is to be effected. No application will be considered received and accepted by the Administrator until **(a)** a completed Application Form and **(b)** all required anti-money laundering documentation, have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Any such applications (as referred to in the previous paragraph) received after the Cut-Off Time for the relevant Dealing Day will normally be held over until the next following Dealing Day. However, in exceptional circumstances, applications received after the Cut-Off Time but prior to the Valuation Point for a particular Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for subscription on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next Dealing Day.

If payment in full in cleared funds in respect of a subscription has not been received by the Settlement Deadline specified in the "*Dealing Information*" table above, the Company may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the applicant for any loss suffered by the Fund as a result of the delay or non-clearance. In addition, the Company will have the right to sell or redeem all or part of the applicant's holding of Shares in the Fund or in any other sub-fund of the Company in order to meet those charges.

## **REDEMPTION PROCEDURE**

Every Shareholder will have the right to require the Company to redeem his Shares on any Dealing Day (save during any period when the calculation of the Net Asset Value is suspended in the circumstances set out under the heading "*Temporary Suspension*" in the Prospectus) on furnishing to the Administrator a redemption request. Shares may be redeemed only by application through the Administrator.

All redemption requests are dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares to be redeemed calculated as at the Valuation Point for the Dealing Day on which the redemption is effected).

Redemption requests will only be accepted where cleared funds and completed documents are in place from original subscriptions. No redemption payment will be made until **(a)** the original Application Form and **(b)** all required anti-money laundering documentation (including such original documentation as may be required), have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Redemption requests must be received and accepted before the Cut-Off Time for the Dealing Day on which the redemption is to be effected. Shares will be redeemed at the relevant Net Asset Value for the relevant Dealing Day (less such redemption fee and Duties and Charges, if any, as may be applied). If the redemption request is received after the relevant Cut-Off Time it shall normally be treated as a request for redemption on the Dealing Day following such receipt and Shares will be redeemed at the relevant Net Asset Value for that day (less such redemption fee and Duties and Charges, if any, as may be applied). However, in exceptional circumstances, redemption requests received after the Cut-Off Time, but prior to the Valuation Point for the relevant Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for redemption on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next following Dealing Day.

Redemption requests shall (save as determined by the Manager) be irrevocable and may, at the risk of the relevant Shareholder, be given by telephone, fax or by post or by such other means as the Company may permit in accordance with Central Bank Requirements.

## **Compulsory Redemption**

The Manager shall have the right to redeem compulsorily any Share at the Redemption Price or to require the transfer of any Share to a Qualified Holder if in its opinion (i) such Share is held by a person other than a

Qualified Holder; or (ii) the redemption or transfer (as the case may be) would eliminate or reduce the exposure of the Company or the Shareholders to adverse tax or regulatory consequences.

### **Switching**

Details in respect of switching are set out in detail under the heading "*Switching*" in the Prospectus.

### **Transfers**

The conditions relating to transfers of Shares are set out in the Prospectus.
