“*Share(s)*”, share(s) of the Fund.

LAZARD EUROPEAN EQUITY FUND

INTRODUCTION

The Company is authorised in Ireland by the Central Bank as a UCITS for the purposes of the Regulations. The Fund was approved by the Central Bank under the name “Lazard European Fund” on 17 April 1996.

This Supplement forms part of the Prospectus and should be read in conjunction with the general description of the Company contained in the current Prospectus (together with the most recent annual and semi-annual reports).

The Company is structured as an umbrella fund in that the share capital of the Company may be divided into different classes of shares with one or more classes representing a separate fund of the Company. Each fund may have more than one share class.

Details of the available classes of Shares in this Fund are set out in **Appendix I** to this Supplement.

As at the date of this Supplement, there are no other Share classes in the Fund apart from those listed in Appendix I, but additional share classes may be added in the future in accordance with Central Bank Requirements.

The Fund Base Currency is the Euro. Share classes denominated in a currency different to the Fund Base Currency will not be hedged against movements in the Fund Base Currency.

Dealing information, including a description of the procedures for subscribing and redeeming Shares, settlement deadlines, dealing frequency and pricing is set out in **Appendix II** to this Supplement.

The Fund promotes environmental and/or social characteristics and is therefore subject to the sustainability-related disclosure rules set out in Article 8 of the EU Sustainable Finance Disclosure Regulation (“**SFDR**”).

Information about the environmental and/or social characteristics of the Fund is set out in **Appendix III** to this Supplement.

An investment in the Fund should be viewed as medium to long term and should not constitute a substantial portion of an investment portfolio.

Investment Objective and Policy

Investment Objective

The investment objective of the Lazard European Equity Fund is to achieve long-term capital growth.

Investment Policy

The Fund will seek to achieve its objective through investment principally in a well diversified, actively managed portfolio of equities and equity-related securities (i.e. shares, including common and preferred stock, warrants and rights).

While the Fund will primarily be invested in equities traded or quoted on Regulated Markets in continental Europe including, specifically, the Regulated Markets of the countries represented in the Benchmark Index (see further below in the section entitled “*Benchmark*”), the Fund may also invest in equities which are quoted or traded on the Regulated Markets of countries not represented in the Benchmark Index, including countries outside of Europe.

The Fund’s investments will typically consist of between 45 to 60 holdings in European companies with liquid quoted securities.

Portfolio construction will be founded on favouring markets with attractive conditions and good relative value combined with investing in stocks that are fundamentally attractive, relatively undervalued and highly marketable.

The Fund incorporates environmental, social, and governance considerations as part of broader investment due diligence and ongoing monitoring of investments in the portfolio. The Fund also applies global norms-based and activity-based exclusion criteria in the stock selection process. Information in relation to the foregoing exclusion criteria and in relation to the sustainability-related features of the Fund's investments is set out in **Appendix III** to this Supplement, which Appendix details the environmental and/or social characteristics of the Fund.

As the Fund's portfolio will consist principally of equities it is likely that the Fund's Net Asset Value will exhibit significant volatility.

While it is intended that the Fund will normally be invested in accordance with the investment policy outlined above, the Investment Manager at all times retains the flexibility to allocate a portion of the Fund's Net Asset Value to cash in circumstances where it is satisfied that it is in the best interests of the Fund to do so. This is in addition to cash held by the Fund as ancillary liquidity for the settlement of transactions.

The securities in which the Fund will invest shall, subject to the Regulations, be listed and/or traded on the Regulated Markets set out in Appendix I of the Prospectus. Investment in securities listed or traded in Russia shall not exceed 5% of the Fund's Net Asset Value at any time and shall be limited to securities which are listed or traded on the Moscow Exchange.

The Fund may also invest in the units or shares of open-ended collective investment schemes which provide exposure consistent with the investment policy of the Fund, including exchange traded funds. Aggregate investment by the Fund in open ended collective schemes shall not exceed 10% of the Fund's Net Asset Value at any time.

Subject to the conditions and within the limits laid down by the Central Bank, the Fund may also engage in transactions in FDI for efficient portfolio management purposes. Investment by the Fund in FDI shall be in accordance with the provisions of Appendix II of the Prospectus and shall be limited to investments in index futures and/or swaps, both of which may be used to provide exposure consistent with the Fund's investment policy more efficiently from a cost and timing perspective, without having to invest directly in the reference assets. Should the Investment Manager invest in index futures and/or swaps on behalf of the Fund, the Fund's global exposure, being the incremental exposure and leverage generated by the Fund through its use of FDI, including instruments which embed a derivative element, will be calculated on at least a daily basis using the commitment approach. However, it is not intended that the Fund will be leveraged.

All of the Fund's investments will be made in accordance with the restrictions set out in Appendix III of the Prospectus.

Benchmark

Performance of the Fund is measured against that of the FTSE World Europe ex-UK Index as measured in Euro, Ticker: WIEXUKS (the "Benchmark Index") for comparative purposes. The Benchmark Index is a free float adjusted index comprised of 20 European stock markets, excluding the UK.

In pursuing its investment objective, the Fund will aim to outperform the Benchmark Index. However, the Fund does not target any particular level of outperformance of the Benchmark Index as an objective.

The Fund is actively managed (meaning that the Investment Manager has discretion over the composition of the Fund's portfolio subject to its stated investment objective and policy as set out above) and securities selection is not therefore constrained entirely by reference to the Benchmark Index. The strategy pursued by the Fund does not impose limits on the extent to which portfolio holdings and/or weights must adhere to or may diverge from the composition of the Benchmark Index.

Although the Fund has full flexibility to invest in securities not represented in the Benchmark Index, it is nonetheless likely to invest significantly in constituent securities of the Benchmark Index.

The Directors reserve the right, if they consider it in the interests of the Fund to do so and with the consent of the Depositary, to substitute another index for the Benchmark Index, in the circumstances set out in the section of the Prospectus entitled '*Benchmark Indices*'.

Benchmarks Regulation

The Fund uses the Benchmark Index as a benchmark in accordance with how the Benchmarks Regulation define '*use of a benchmark*' and is permitted to do so in accordance with Art.51(5) of the Benchmarks Regulation, as amended. The Benchmark Index is administered by FTSE International Limited. Prior to 1 January 2021 (the end of the Brexit transition period), FTSE International Limited was authorised as an EU benchmark administrator under Article 34 of the Benchmarks Regulation and was included in the public register established and maintained by ESMA in accordance with Article 36 of the Benchmarks Regulation (the "ESMA Register"). As of 1 January 2021, FTSE International Limited is and remains, as at the date of this Supplement, authorised as a UK benchmark administrator regulated by the UK's FCA but is considered a "third country" UK benchmark administrator vis-a-vis the EU and therefore no longer appears on the ESMA Register. This will remain the position unless and until a relevant "equivalence" decision is made by the European Commission or until FTSE International Limited is granted "endorsement" or "recognition" under the Benchmarks Regulation.

Shareholders are referred to the section of the main Prospectus entitled 'Benchmark Indices', which outlines in summary form the steps that might be taken by the Company in the event that the Benchmark Index is materially changed or ceases to be provided by FTSE International Limited.

Investment and Borrowing Restrictions

The Company is a UCITS and accordingly the Fund is subject to the investment and borrowing restrictions set out in the Regulations and Central Bank Requirements. These restrictions are set out in detail in Appendix III to the Prospectus.

The Fund qualifies as an "*equity fund*" for the purpose of the German Investment Tax Act ("GITA") in at least 51% of the Fund's Net Asset Value will at all times be invested in equity securities, being shares in corporations which are admitted to official trade at a stock exchange or noted at an organised market, which is either located within the EU or EEA or, if this is not the case, is recognized by the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht*). For the avoidance of doubt, the term "equity securities" in this particular context only includes shares in corporations as aforesaid and does not include units or shares of investment funds or REITs (Real Estate Investment Trusts). Relevant investors should refer to the section of the Prospectus entitled "*German Taxation*" for further information on the impact of GITA.

Risk Factors

Shareholders and potential investors should consider and take account of the risk factors set out in the Prospectus (in particular the risks under the headings "*Market Fluctuations*", "*Active Management Risk*" and "*Equity Market Risk*") in addition to those set out below.

Concentration Risk

In view of the concentrated nature of the portfolio, the level of risk is expected to be higher than that associated with a broader based, more diversified fund and the value may be more volatile. For example, the performance of a single stock within the portfolio may have a greater effect on the Fund's Net Asset Value per Share.

Exchange Rate Risk

The Fund Base Currency is the Euro. Share classes denominated in a currency different to the Fund Base Currency will not be hedged against movements in the Fund Base Currency and will, accordingly, be subject to exchange rate risk in relation to the Fund Base Currency.

The Fund has the flexibility to invest in assets denominated in currencies different to the Fund Base Currency. Where the currencies in which portfolios assets are denominated differ from the Fund Base Currency and such exposures are not hedged the Fund may be affected unfavourably due to fluctuations in the relevant rates of exchange.

Sustainability Risks

The Investment Manager's Sustainable Investment and ESG (environmental, social and governance) Integration Policy (the "Policy") outlines its approach and commitment to incorporating environmental, social, and corporate governance considerations in the investment processes to safeguard the interests of its clients and other relevant stakeholders, including the Fund. In particular, the Policy requires the Investment Manager to integrate the consideration of Sustainability Risks in its management of the Fund's portfolio pursuant to the SFDR or similar local regulations.

The Investment Manager has access to ESG data from both internal and external resources, which allows it to assess the Sustainability Risks associated with prospective or existing investments for the Fund. This data includes:

- Internal information, including: proprietary research reports containing ESG impacts/attributes of companies, Materiality Mapping¹ analysis which evaluates ESG issues facing specific industry groups, an ESG Watchlist report that flags companies scoring poorly on a selection of ESG risk factors, and stewardship activity (engagement, proxy voting, shareholder resolution) information on ESG issues.
- Third-party data and information, including: ESG ratings and risk scores for systematic comparison of ESG performance across companies, controversies analysis and information, global norms compliance screens, and a wider set of ESG metrics for corporates and sovereign issuers in the investible universe.

When selecting investments for the Fund, the Investment Manager will employ some combination of the above-referenced data as well as other data to identify and assess the relevant Sustainability Risks. The Investment Manager's analysis of the Sustainability Risks and factors mitigating those Sustainability Risks may result in various outcomes, including without limitation an adjustment to its valuation of an issuer's securities, a decision to overweight or underweight exposure to those securities in the Fund's portfolio, or a decision to avoid investment in the securities. The Investment Manager's assessment of the Sustainability Risks relating to an investment for the Fund will evolve as it continues to conduct fundamental research concerning that issuer, its industry/sector, and other interested entities and stakeholders.

While the Investment Manager believes that Sustainability Risks likely will have negative impacts on the business activities and financial performance of certain issuers in the Fund's investment universe over time, the Investment Manager does not believe that those Sustainability Risks will have unique impacts on the future returns of the Fund. The Investment Manager currently believes that its investment process, when applied in normal market conditions to the universe of securities eligible for investment by the Fund, should help the Fund avoid investments that present unacceptably high Sustainability Risks and investments whose valuations do not accurately reflect such Sustainability Risks.

¹ The Investment Manager's proprietary Materiality Mapping analysis uses as its foundation the Sustainability Accounting Standards Board (SASB)'s Materiality Map™.

Profile of a Typical Investor

The Fund is suitable for retail and institutional investors over the medium to long term seeking capital growth through investment primarily in a diversified portfolio of equities quoted or traded on Regulated Markets in continental Europe and who can tolerate the high levels of volatility often associated with the equity markets.

Management and Administration

Detailed descriptions of the Directors and service providers to the Company are set out in the Prospectus.

FEES AND EXPENSES

Share Class Fees and Charges

Details of certain fees and charges applicable to each class of Shares (including the Annual Management Fee and the maximum percentage fees payable on subscription, redemption and conversion) are set out in the tables included in Appendix I to this Supplement.

Expense Cap

Each class of Shares of the Fund shall also bear its attributable portion of the other expenses of the Company (as are set out in detail under the heading "*Other Expenses*" in the section of the Prospectus entitled "*Fees and Expenses*"). The payment of all such expenses out of Fund assets, with the exception of the expenses of acquiring and disposing of Investments (including brokerage expenses, custodial and sub-custodial transaction charges - which shall be at normal commercial rates - stamp duties and other relevant taxes) is subject to a cap of 0.30% per annum of the Net Asset Value of the Fund (the "**Expense Cap**"). The Manager will be responsible for discharging any relevant expenses as described above in excess of this Expense Cap. For the avoidance of doubt, the expenses of acquiring and disposing of Investments (including brokerage expenses, custodial and sub-custodial transaction charges, stamp duties and other relevant taxes) are not subject to the Expense Cap and shall be borne in full out of the assets of the Fund.

Notes:

- (1) other than in exceptional circumstances, dealing and settlement will only take place in the currency in which the relevant Shares are denominated. Investors who wish to deal or settle in a currency different to the currency in which the relevant Shares are denominated should refer to the "Dealing/Settlement Currency" section of the 'Dealing Information' table in Appendix II.
- (2) shareholders and investors are referred to the table below entitled "Share Class Types" for specific information (if any) pertaining to particular class types.
- (3) or the equivalent amount in the currency in which the relevant class of Shares is denominated (or less at the discretion of the Manager).
- (4) being a percentage per annum of the Net Asset Value attributable to the relevant class of Shares. The Annual Management Fee is accrued daily based on the daily Net Asset Value attributable to the relevant class of Shares and is paid to the Manager monthly in arrears. The Manager is also entitled to be reimbursed by the Fund for its reasonable out-of-pocket expenses. The Manager is responsible for discharging the fees and expenses of the Investment Manager, the Promoter and the Distributors out of the fees it receives from the Fund.
- (5) the Directors may, in their absolute discretion and in respect of each subscription for Shares, charge a preliminary fee of up to the amount specified, being a percentage of the Net Asset Value of the Shares subscribed. This preliminary fee shall be paid to the Manager. The Manager may pay all or any part of the preliminary fee to financial intermediaries assisting with the sale of Shares in the Fund.
- (6) the Directors may, in their absolute discretion and in respect of each redemption of Shares, charge a redemption fee of up to the amount specified, being a percentage of the Net Asset Value of the redeemed Shares.

A redemption fee will only be charged if the Directors believe that the redeeming Shareholder: (i) is engaged in short term trading in a manner which is considered by the Directors, in their absolute discretion, to be inappropriate and/or not in the best interests of the Fund's Shareholders or (ii) is attempting any form of arbitrage on the yield of the Shares.

- (7) the Directors may, in their absolute discretion, charge a switching fee of up to 1% of the Net Asset Value of the Shares to be switched.
- (8) The continuing Initial Offer Period for this Share class shall end at 5.00 pm (Irish time) on 31 May 2023 unless such period is shortened or extended by the Directors and notified to the Central Bank.

See the table below entitled "Share Class Initial Offer Price" for details of the price per Share at which Shares may be subscribed during the Initial Offer Period.

Applications for Shares during the Initial Offer Period must be received (together with cleared funds and all required anti-money laundering documentation) during the Initial Offer Period. All applicants for Shares during the Initial Offer Period must complete (or arrange to have completed under conditions approved by the Directors) the Application Form.

Share Class Initial Offer Price	
Share Class(es)	Initial Offer Price
All CHF denominated classes	CHF1.00
All EUR denominated classes	€1.00
All GBP denominated classes	£1.00
All USD denominated classes (with the exception of USD denominated M classes)	US\$1.00

Share Class Types	
C Classes	<p>The Annual Management Fee charged in respect of Shares of the C Classes is a "clean fee" insofar as it does not include any provision to cover the payment of rebates to the holders of such Shares or the payment of retrocessions, commissions or other monetary benefits to third parties involved in the distribution of such Shares.</p>
M Classes	<p>Shares in the M Classes are available for investment only to other funds managed or advised by a Lazard Affiliate or to such other persons as the Manager may determine from time to time.</p> <p>For the purposes of this section:</p> <p><i>"Lazard Affiliate"</i>, means a company which has the ultimate parent of the Investment Manager as its ultimate parent, or a company in which that company has at least 50% direct or indirect ownership.</p>
X Classes	<p>Shares in the X Classes may only be acquired or held by an investor who is party to a current Investor Agreement (as such term is defined below).</p> <p>No transfer of Shares of the X Classes may be made unless the proposed transferee is party to a current Investor Agreement.</p> <p>No Annual Management Fees are charged to the assets attributable to the X Classes. Instead, Shareholders in an X Class will be subject to such management fees in respect of their investment in the relevant X Class as are set out in the Investor Agreement to which they are party, and for which they will be charged directly. In addition, and with respect to their investment in an X Class, relevant Shareholders will be subject to all other fees/charges applicable to an investment in an X Class as are specified in accordance with the terms of this Prospectus.</p> <p>The Company reserves the right, at the request of the Manager, to repurchase the entire holding of shares of any X Class Shareholder, if the Investor Agreement to which the relevant Shareholder is party is terminated for any reason whatsoever.</p> <p>For the purpose of this section:</p> <p><i>"Investor Agreement"</i> means an agreement between a Lazard Affiliate and an investor in accordance with which the investor has agreed to invest in an X Class and to pay the fees associated with such investment as are specified in the agreement.</p> <p><i>"Lazard Affiliate"</i>, means a company which has the ultimate parent of the Investment Manager as its ultimate parent, or a company in which that company has at least 50% direct or indirect ownership.</p>

Valuation Point	4.00pm (New York time) on each Dealing Day and on each Valuation Day.

VALUATION OF ASSETS

The Net Asset Value of the Fund and of each Share class will be calculated by the Administrator as at each Valuation Point in accordance with the requirements of the Articles and full details are set out under the heading "*Statutory and General Information*" in the Prospectus.

Applications for subscriptions and redemptions properly received will be processed on a Dealing Day. The Net Asset Value of the Fund and of each Share class will be available on each Valuation Day, whether such Valuation Day is a Dealing Day or not.

SHARE PRICE

Shares are issued and redeemed at a single price, being the Net Asset Value per Share of the relevant class, which may be adjusted in the manner set out immediately below in the section entitled 'Dilution and Swing Pricing'.

DILUTION AND SWING PRICING

Certain costs are customarily incurred when a Fund has to buy or sell portfolio assets in order to satisfy or give effect to requests for subscription or redemption of its Shares.

These dealing costs comprise Duties and Charges incurred in the purchase or sale of Investments and include the costs associated with spreads – i.e. the costs to a Fund associated with spreads between the estimated value attributed to Investments when calculating its Net Asset Value and the actual price at which such Investments are ultimately bought or sold by the Fund in the market place ("**Spreads**"). The incurring of such costs by the Fund can result in the Fund's value being diminished or 'diluted'.

With a view to mitigating the effects of dilution on the Fund, in certain circumstances, and at the Directors' discretion, the Company applies a dilution adjustment in the calculation of the Share Price for its Shares, a policy known as "swing pricing".

Swing pricing, where applied to the Fund, aims to apply the burden of the costs associated with dealing in the Fund's Shares to the investors that actually request those Share deals on any particular Dealing Day, and not to the Shareholders in the Fund who are not trading in the Fund's Shares on the relevant Dealing Day. In this way, although it is not the aim of swing pricing to enhance results over time, it operates to mitigate the adverse effects of dilution as a result of those costs and to preserve and protect the value of shareholdings, thereby benefiting long-term Shareholders' net returns.

Swing pricing will operate in a manner that will aim to ensure that when, on any particular Dealing Day, the net dealing position exceeds a certain threshold, the Company will have the discretion to adjust the price for the Fund's Shares on that day so as to include a provision to account for the estimated associated costs. In this way, on any Dealing Day on which such an adjustment is applied, investors dealing in the Fund's Shares on that day, rather than the Fund itself (i.e. not the then existing or continuing Shareholders of the Fund), will

bear the costs estimated to be incurred when buying or selling portfolio assets in order to satisfy or give effect to the dealing requests received.

Swing pricing, where applied, will involve pricing the Shares of the Fund as set out below:

- (i) where the Fund is in a net subscription position on any particular Dealing Day (i.e. where total purchases of the Fund's Shares exceeds total redemptions) and that net position exceeds a certain threshold determined by the Company at its discretion, the Net Asset Value per Share may be adjusted upwards by an appropriate percentage factor (not ordinarily exceeding 1% of the Net Asset Value per Share) to account for Duties and Charges (including the costs associated with Spreads). Investors subscribing and/or redeeming Shares of a Class in the Fund on that particular Dealing Day will deal at this Share Price, being the Net Asset Value per Share of the relevant Class adjusted upwards; and
- (ii) where the Fund is in a net redemption position on a particular Dealing Day (i.e. where total redemptions of the Fund's Shares exceeds total subscriptions), and that net position exceeds a certain threshold determined by the Company at its discretion, the Net Asset Value per Share may be adjusted downwards by an appropriate percentage factor (not ordinarily exceeding 1% of the Net Asset Value per Share) to account for Duties and Charges (including the costs associated with Spreads). Investors subscribing and/or redeeming Shares of a Class in the Fund on that particular Dealing Day will deal at this Share Price, being the Net Asset Value per Share of the relevant Class adjusted downwards.

Accordingly, where applied for the purpose of calculating the Share Price on any particular Dealing Day, the swing pricing mechanism will involve the relevant Net Asset Value per Share being either increased to arrive at the Share Price (when the Fund is in a net subscription position) or decreased (when the Fund is in a net redemption position) by a percentage factor determined by the Company from time to time at its sole discretion (the "**Swing Adjustment**").

Since the Swing Adjustment for the Fund will be calculated by reference to the estimated or predicted costs of dealing in the underlying Investments of the Fund, including any dealing Spreads, and these can vary with market conditions, this means that the amount of the Swing Adjustment may vary over time. However, as indicated above, the Swing Adjustment, where applied to the Fund, shall not ordinarily exceed 1% of the Net Asset Value per Share. In exceptional circumstances, however, and only where deemed by the Directors to be necessary in order to protect Shareholders' interests in the Fund, the Swing Adjustment may exceed this threshold.

Where a Swing Adjustment is applied on any particular Dealing Day, it is applied to the Net Asset Value per Share. The Net Asset Value per Share of each Class of Shares of the Fund is calculated separately, but any Swing Adjustment will in percentage terms affect the Net Asset Value per Share of each Class of the Fund in an identical manner. Investors who subscribe into or redeem from the same Class of Shares on any particular Dealing Day will deal at a single price, being the Net Asset Value per Share of the relevant Class as adjusted, where relevant, by the Swing Adjustment. The Share Price for Shares of a particular Class on any Dealing Day will therefore always be the same regardless of whether an investor is subscribing into or redeeming from that Class. Where no Swing Adjustment is applied, investors will subscribe and redeem at the unadjusted Net Asset Value per Share for the relevant Class.

As indicated, the Swing Adjustment will be of a level that the Company considers appropriate to mitigate the dilutionary effects of the Duties and Charges which may be incurred by the Fund as a result of having to acquire or dispose of assets for the portfolio, as relevant, following subscriptions, redemptions and/or switches in and out of the Fund on the relevant Dealing Day. Importantly, the Swing Adjustment is designed to account for an approximation or estimate of the relevant dealing costs and may not reflect exactly (either underestimating or overestimating) the precise costs that are ultimately incurred. Any such overestimate will accrue to the benefit of the Fund, whereas any underestimate shall be borne by the Fund.

Additionally, a Swing Adjustment will typically only be applied if, on a given Dealing Day, the relevant net dealing position in the Fund exceeds a level (the "**Swing Threshold**") that has been pre-determined by the Company at its discretion. The Company, however, retains the discretion not to apply a Swing Adjustment, where this is considered to be in the best interests of Shareholders of the Fund as a whole. Where the Fund is experiencing net subscriptions or net redemptions of Shares and a Swing Adjustment is not applied, there

may be an adverse dilutionary impact on the value of the Fund. The Company may also in the future remove the Swing Threshold for the Fund with the result that, when calculating the Share Price, the Net Asset Value of its Shares would be adjusted whenever there are net purchases or net redemptions of Shares.

The Company will not benefit from the operation of swing pricing and it will be imposed only in a manner, that, so far as is practicable, is fair to Shareholders and solely for the purposes of reducing dilution. At all times, a robust governance framework will be operated by the Company in relation to its application and use of swing pricing so as to ensure that both the Swing Threshold and the level of any Swing Adjustment are subject to appropriate review and revision as necessary taking into consideration the best interests of Shareholders.

SUBSCRIPTION PROCEDURE

All applicants subscribing for Shares must complete the application form prescribed by the Directors in relation to the Fund ("**Application Form**") and comply promptly with all necessary money laundering clearance requirements.

An Application Form accompanies this Supplement and sets out the methods by which and to whom the subscription monies should be sent. Application Forms shall (save as determined by the Manager) be irrevocable and may be sent by facsimile to the Administrator at the risk of the applicant.

The original Application Form should be sent to arrive with the Administrator within four Business Days of the date on which the application for Shares was made. All required anti-money laundering documentation (including such original documentation as may be required) should accompany the original Application Form.

Failure to provide the original Application Form and all required anti-money laundering documentation within the time period referred to in the previous paragraph may, at the discretion of the Manager, result in the compulsory redemption of the relevant Shares.

Applicants will be unable to redeem Shares on request until the original Application Form and all required anti-money laundering documentation has been received by the Administrator in a form satisfactory to it, and accepted.

Shareholders may subscribe for further Shares (i.e. post their initial subscription) by telephoning or sending a fax to the Administrator or by electronic means or by such other means as the Company may permit in accordance with Central Bank Requirements. Telephone dealing will be recorded by the Administrator.

All subscription requests received after the Initial Offer Period for the relevant Shares has closed will be dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares subscribed calculated as at the Valuation Point for the Dealing Day on which the subscription is effected).

Applications for Shares received after the Initial Offer Period for such Shares has closed must be received and accepted before the Cut-Off Time for the Dealing Day on which the subscription is to be effected. No application will be considered received and accepted by the Administrator until **(a)** a completed Application Form and **(b)** all required anti-money laundering documentation, have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Any such applications (as referred to in the previous paragraph) received after the Cut-Off Time for the relevant Dealing Day will normally be held over until the next following Dealing Day. However, in exceptional circumstances, applications received after the Cut-Off Time but prior to the Valuation Point for a particular Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for subscription on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next Dealing Day.

If payment in full in cleared funds in respect of a subscription has not been received by the Settlement Deadline specified in the "*Dealing Information*" table above, the Company may (and in the event of non-clearance of funds, shall) cancel the allotment and/or charge the applicant for any loss suffered by the Fund as a result of the delay or non-clearance. In addition, the Company will have the right to sell or redeem all or part of the applicant's holding of Shares in the Fund or in any other sub-fund of the Company in order to meet those charges.

REDEMPTION PROCEDURE

Every Shareholder will have the right to require the Company to redeem his Shares on any Dealing Day (save during any period when the calculation of the Net Asset Value is suspended in the circumstances set out under the heading "*Temporary Suspensions*" in the Prospectus) on furnishing to the Administrator a redemption request. Shares may be redeemed only by application through the Administrator.

All redemption requests are dealt with on a forward pricing basis (i.e. by reference to the Net Asset Value of the Shares to be redeemed calculated as at the Valuation Point for the Dealing Day on which the redemption is effected).

Redemption requests will only be accepted where cleared funds and completed documents are in place from original subscriptions. No redemption payment will be made until **(a)** the original Application Form and **(b)** all required anti-money laundering documentation (including such original documentation as may be required), have been received by the Administrator and both **(a)** and **(b)** satisfy the requirements of the Administrator.

Redemption requests must be received and accepted before the Cut-Off Time for the Dealing Day on which the redemption is to be effected. Shares will be redeemed at the relevant Share Price for the relevant Dealing Day (less such redemption fee, if any, as may be applied). If the redemption request is received after the relevant Cut-Off Time it shall normally be treated as a request for redemption on the Dealing Day following such receipt and Shares will be redeemed at the relevant Share Price for that day (less such redemption fee, if any, as may be applied). However, in exceptional circumstances, redemption requests received after the Cut-Off Time, but prior to the Valuation Point for the relevant Dealing Day may be accepted for dealing on that Dealing Day at the discretion of the Manager. Any request for redemption on a particular Dealing Day received after the Valuation Point for that Dealing Day will be held over until the next following Dealing Day.

Redemption requests shall (save as determined by the Manager) be irrevocable and may, at the risk of the relevant Shareholder, be given by telephone, fax, by post, by electronic means or by such other means as the Company may permit in accordance with Central Bank Requirements.

Compulsory Redemption

The Manager shall have the right to redeem compulsorily any Share or to require the transfer of any Share to a Qualified Holder if in its opinion (i) such Share is held by a person other than a Qualified Holder; or (ii) the redemption or transfer (as the case may be) would eliminate or reduce the exposure of the Company or the Shareholders to adverse tax or regulatory consequences.

Switching

Details in respect of switching are set out in detail under the heading "*Switching Between Share Classes and Funds*" in the Prospectus.

Transfers

The conditions relating to transfers of Shares are set out in the Prospectus.

APPENDIX III

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

	Product name:	Lazard European Equity Fund	Legal entity identifier:	5493005HYXTLWPEWMJ57
<p>Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.</p> <p>The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.</p>	Environmental and/or social characteristics

	What environmental and/or social characteristics are promoted by this financial product?			
<p>The Fund's environmental and social characteristics are:</p> <ol style="list-style-type: none"> 1. To maintain a weighted average ESG rating that is better than the Benchmark Index (as referred to in the section of this Supplement entitled "Benchmark") over the reference period. The rating methodology is based on third-party ESG rating information that assesses companies' exposure to, and management of, material environmental, social, and governance issues. 2. To avoid investing in companies that violate global environmental and social norms. The Investment Manager assesses companies against an internally generated watchlist, which leverages third-party vendor information, and an exclusion policy is applied by the Fund that prohibits investing in or obtaining exposure to companies that are deemed by the Investment Manager to violate United Nations Global Compact (UNGC) principles. This helps to avoid investments that, at a minimum, do not meet social and 				

	<p>environmental norms with regards to human rights, labour, and anti-corruption, as well as environmental degradation.</p> <p>3. To promote certain minimum environmental and social safeguards by applying specific exclusion thresholds on corporates that are involved in controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production.</p>
<p>Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.</p>	<p>● What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?</p>
	<p>The Fund uses the following sustainability indicators to measure how the environmental and social characteristics of the Fund are attained:</p> <ol style="list-style-type: none"> 1. The Fund's weighted average ESG rating is better than that of the Benchmark Index. 2. The Fund has no exposure to companies deemed by the Investment Manager to be breaching the UNGC principles. 3. The Fund has no exposure to companies excluded by the exclusion criteria relating to controversial weapons production, military weapons production, thermal coal mining or production, or tobacco production.
	<p>● What are the objectives of the sustainable investments that the financial product partially intends to make and how does the sustainable investment contribute to such objectives?</p>
	<p>Not applicable – the Fund does not commit to making sustainable investments.</p>
	<p>● How do the sustainable investments that the financial product partially intends to make, not cause significant harm to any environmental or social sustainable investment objective?</p>
<p>Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.</p>	<p>Not applicable.</p>

	<p>What investment strategy does this financial product follow?</p>
<p>The investment strategy guides investment decisions based on factors such as</p>	<p>Lazard European Equity Fund is an actively managed equity strategy with a concentrated portfolio of select European (ex-UK) equities. Stocks are selected for the Fund using a fundamental investment process as described in the section of this Supplement entitled "Investment Policy" and in accordance with the strategy described below for selecting</p>

investment objectives and risk tolerance	investments to attain the environmental and social characteristics of the Fund.
	<p>● <i>What are the binding elements of the investment strategy used to select the investments to attain each of the environmental or social characteristics promoted by this financial product?</i></p>
	<p>The Fund has the following binding elements:</p> <ol style="list-style-type: none"> 1. The Fund's ESG rating is monitored against the Benchmark Index to ensure it outperforms on a weighted average basis over the reference period. The ESG rating measures companies' exposure to, and performance managing, material environmental, social, and governance considerations. The Investment Manager seeks to achieve a better overall ESG rating by making investments in issuers with attractive ESG characteristics and limiting exposure to companies with higher sustainability risks. 2. The Investment Manager assess violations of UNGC principles based on third-party data and internal research. Any company deemed by the Investment Manager to be breaching UNGC principles will be excluded from the Fund's investment universe and the Fund will have 0% exposure to such companies. 3. The Fund applies activity-based exclusion criteria for certain products and services and will have 0% exposure to securities excluded under this policy. The exclusion criteria for the Fund includes companies which are involved in: <ul style="list-style-type: none"> • the manufacture or production of controversial weapons (any revenue from controversial weapons such as anti-personnel mines, cluster munitions, nuclear weapons in countries not party to the Non-Proliferation Treaty (NPT), biological weapons, chemical weapons, depleted uranium weapons.). • military weapons production which represents 10% of revenue or greater. • tobacco production which represents 5% of revenue or greater. • thermal coal mining or production which represents 30% of revenue or greater.
<p>Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.</p>	<p>● <i>What is the committed minimum rate to reduce the scope of the investments considered prior to the application of that investment strategy?</i></p>
	There is no committed minimum rate to reduce the scope of the investment considered.
	<p>● <i>What is the policy to assess good governance practices of the investee companies?</i></p>
	<p>The Investment Manager has developed Global Governance Principles that set out expectations for corporate governance on issues such as board independence, accountability and composition, as well as culture, remuneration, shareholder rights, amongst others. The principles provide a framework for governance assessments and stewardship activity, clearly setting out the Investment Manager's expectations of company management and effective stakeholder management.</p> <p>The assessment of good governance practices is supported by a broad range of governance information from third-party ESG data sets. These data sources also provide governance-related controversy information, which can be used to flag governance issues at investee companies. Governance assessments and information are fully incorporated into investment due diligence processes, ongoing monitoring of issuers in the portfolio, and stewardship activities.</p>

Asset allocation describes the share of investments in specific assets.

What is the asset allocation planned for this financial product?

At least 90% of the Fund's NAV will be in investments aligned with any one or more of the E/S characteristics of the Fund. The Fund does not commit to making sustainable investments. Any investments in the "#2 Other" category will include investments and other instruments of the Fund that cannot be aligned with the environmental and/or social characteristics of the Fund. These can include, for example, derivatives, cash and cash/equivalents. The Fund does not make a minimum commitment to making investments that fall within the "#2 Other" category and therefore 0% is included for that category in the graphic below. This means that between 0% and 10% of the Fund's NAV might at any point in time be in investments that qualify as "#2 Other" investments. The planned asset allocation will be reviewed on an annual basis.

● **How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?**

The Fund does not use derivatives for attaining the environmental or social characteristics promoted by the Fund.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

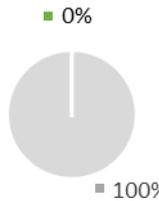

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

To what minimum extent are sustainable investments with an environmental objective aligned with the EU Taxonomy?

Enabling activities directly enable other activities to make a substantial contribution to an environmental

The Fund does not commit to making sustainable investments or to making Taxonomy-aligned investments. It is expected, however, that in pursuing its environmental characteristics, the Fund will contribute to one or more of the following environmental objectives as set out in the Taxonomy Regulation: climate change mitigation and/or climate change adaptation.
